**ASSIGNMENT
INVENTOR or INVENTORS:**

Matthew J. VINCENT

Keith H. KUECHLER

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the undersigned person(s) named above, herein referred to as UNDERSIGNED, hereby agree(s) as follows:

1) UNDERSIGNED hereby assign(s) to ExxonMobil Technology and Engineering Company, a Delaware Corporation, its successors, legal representatives and assigns, herein referred to collectively as ASSIGNEE, free from all encumbrances, the entire right, title and interest, including all rights to sue for past infringement, for the United States and all other countries, in and to UNDERSIGNED's invention, discovery, or improvement described in the following document:

Methods for Converting C2+ Olefins to Higher Number Olefins Useful in Producing Isoparaffinic Kerosene Compositions
further identified as Attorney Docket No 2022EM123-US and Application No. 17/820152, filed 16 Aug 2022

which UNDERSIGNED has read and understood, and to any and all patent applications and patents covering any invention described in this document and claiming priority based on such document, applications, and/or patents, including the right to claim priority from such document, applications, and/or patents, for any patent applications filed in the United States and any country worldwide (whether under the Paris Convention, equivalent reciprocal provisions, or otherwise), including for any subsequent application, continuations, continuations-in-part, divisions, reissues, reexaminations, and extensions.

2) UNDERSIGNED agree(s) upon the request of ASSIGNEE to execute any and all applications for and documents relating to obtaining patents and the prosecution thereof for said invention, discovery, or improvement, and any continuations or divisions of such applications or substitutes therefor or registrations thereof, and any specific separate assignments of any of the above required for recording in the United States Patent and Trademark Office and any foreign patent office that ASSIGNEE may deem necessary or expedient.

3) UNDERSIGNED agree(s) that in the event of any application based on said assigned invention, discovery, or improvement, or patent issued thereon, or any reissue or application for the reissue thereof, becoming involved in priority of invention proceedings, in any reexamination or reissue proceedings, or any other legal proceedings, UNDERSIGNED will cooperate with ASSIGNEE to the best of the ability of UNDERSIGNED in the matter of preparing and executing all documents and giving and producing evidence in support thereof.

4) UNDERSIGNED agree(s) to perform upon ASSIGNEE's request any and all affirmative acts that ASSIGNEE may deem necessary or expedient (i) to obtain United States and foreign patents covering said invention, discovery, or improvement, and (ii) to vest all rights therein that are hereby conveyed to ASSIGNEE, as fully and as entirely as the same would have been held and enjoyed by UNDERSIGNED if this assignment and sale had not been made. Such acts may include, but are not limited to, assisting in the execution of priority claims, declarations, affidavits, or other papers relating thereto, and any specific separate assignments of any of the above required for recording in the United State Patent and Trademark Office or other foreign country or patent office or patent organization. This Assignment is binding on the UNDERSIGNED's successors, heir and assigns.

IN WITNESS WHEREOF, this assignment has been executed by UNDERSIGNED on the date opposite UNDERSIGNED's NAME.
