WHEREAS, **doc.ai, inc.**, a corporation organized and existing under the laws of the State of Delaware, having a place of business at 636 Waverley Street, Suite 200, Palo Alto, California 94301, hereinafter referred to as “Assignor,” was the sole owner by assignment of the patent applications listed in Attachment A, including, but not limited to priority documents, continuations, foreign counterparts and rights to assert the patents and collect damages for infringement;

WHEREAS, on or about January 13, 2021, corporation named Project Delta Merger Sub II, Inc. (“corporation”) was formed located at 1209 Orange Street, Willington, DE 19801;

WHEREAS, on or about February 22, 2021: **doc.ai, inc.**, merged with and into Project Delta Merger Sub II, Inc. (“Surviving Company”) located at 636 Waverly St, Palo Alto, CA 94301;

WHEREAS, on or about February 23, 2021 a name change was performed by filing a Certificate of Amendment of the Certificate of Incorporation for Project Delta Merger Sub II, Inc., changing the name of the Surviving Company to Sharecare AI, Inc.;

THEREFORE, the Assignee and owner of the patent applications listed in Attachment A is **Sharecare AI, Inc.**

WHEREAS, **doc.ai, inc.**, Assignor, and **Sharecare AI, Inc.**, a corporation organized and existing under the laws of the State of Delaware, hereinafter referred to as “Assignee,” are desirous of confirming transfer of an interest in the inventions, the patents and in the applications and in any Letters Patent and Registrations, which may be granted on the same, in the U.S. and any other country;

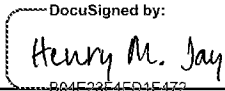

For good and valuable consideration, receipt of which is hereby acknowledged by Assignor, Assignor confirms that effective 22 February 2021 Assignor has assigned, and by these presents does assign to Assignee all right, title and interest in and to the inventions, patents and applications and to all foreign counterparts (including patent, utility model and industrial designs), and in and to any Letters Patent and Registrations which have been granted and may hereafter be granted on any patent application claiming priority from the same in the United States and all countries throughout the world, and to claim the priority from the application. The right, title and interest is to be held and enjoyed by Assignee and Assignee’s successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this Assignment not been made, for the full term of any Letters Patent

Assignor further agrees that Assignor will, without charge to Assignee, but at Assignee's expense, (a) cooperate with Assignee in the prosecution of U.S. Patent applications and foreign counterparts on the invention and any improvements, (b) execute, verify, acknowledge and deliver all such further papers, including applications and instruments of transfer, and (c) perform such other acts as Assignee lawfully may request to obtain or maintain Letters Patent and Registrations for the invention and improvements in any and all countries, and to vest title thereto in Assignee, or Assignee's successors and assigns.
