**WHEREAS**, Atrial Solutions, Inc., a Delaware corporation having a place of business at 1209 Orange Street, Wilmington, DE 19801 ("Assignee"), is desirous of acquiring all right, title, and interest in and to the Inventions;

**NOW, THEREFORE**, for \$1.00 and other good and valuable consideration, the receipt and sufficiency of which Assignor hereby acknowledges, Assignor does hereby sell, transfer, convey, and assign to Assignee the full and exclusive right to the Inventions anywhere in the World, including the United States, and the entire right, title and interest in and to any and all Patents or other grants of protection of proprietary rights (including inventor's certificates, utility models, design patents, etc.) that may be granted therefor anywhere in the World, including any and all continuations, divisions, reissues, renewals and extensions derived therefrom, including rights under the Paris Convention. Assignor also assigns the right to sue for past and future infringement of any of the foregoing, and to collect and retain all damages and profits and enjoy all other remedies granted for infringements.

Assignor covenants that it has the full right to convey the entire right, title and interest herein assigned and that it has not executed and will not execute any agreement in conflict herewith.

Assignor agrees that it will, at any time upon request, without further or additional consideration, but at the expense of the Assignee, execute such additional writings and do such additional acts as the Assignee may deem necessary or desirable to perfect the Assignee's enjoyment of this grant. Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks to issue any United States Patent on the Inventions to assignee to the full end of the term for which the Patent may be granted, as fully and entirely as the same would have been held Assignor had this assignment and sale not been made.
