ASSIGNMENT

WHEREAS, We, CHAD CARROLL, JAIME ERAZO, VALERIY SMIRNOV, THOMAS KORB, MARK VACCARI, SEAN BATTISTI and JOSE CORCEGA ("Assignors"), have invented certain new and useful improvements in "LOW NOX AND CO COMBUSTION BURNER METHOD AND APPARATUS", for which We executed an application for United States Letters Patent concurrently herewith or filed an application for Letters Patent of the United States on February 13, 2020, and accorded Serial No. 16/638,831, which is the U.S. national phase application corresponding to PCT international application number PCT/IB2018/056780, filed on September 5, 2018 ("Application"); and

WHEREAS, JOHN ZINK COMPANY, LLC, a limited liability company of the State of Delaware having a place of business at 11920 East Apache Street, Tulsa, Oklahoma 74116 ("Assignee"), desires acquiring or has acquired Assignor's interest in the above-identified invention, the above-identified patent application, and any related patent applications and patents;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor by these presents does hereby sell, assign, and transfer, or by virtue of employment agreements or other applicable agreements has sold, assigned, and transferred, unto Assignee, its successors, legal representatives, and assigns, Assignor's entire right, title, and interest in and to the above-identified invention, the above-identified patent application, the entire right, title, and interest in and to provisional application number 62/554,327, filed September 5, 2017, and provisional application number 62/690,185, filed June 26, 2018, any U.S. or foreign patent applications related to the above-identified invention, any U.S. or foreign patent applications claiming priority to any of the above-referenced patent applications, including any division, continuation, continuation-in-part, reexamination, reissue, extension, substitution, or renewal of any of the above-referenced patent applications, any right to claim priority arising from or required for any of the above-referenced patent applications under any applicable convention, treaty, statute, or regulation, any other right, privilege, or form of protection related to the above-identified invention or any of the above-referenced patent applications, and any U.S. or foreign patent granted from any of the above-referenced patent applications, to the full end of the term of the patent, to be held and enjoyed by Assignee, its successors, legal representatives, and assigns as fully and entirely as it would have been held and enjoyed by Assignor;

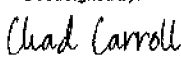

AND, Assignors hereby authorize Assignee to file any of the above-referenced patent applications in the name of Assignee or its designee, and Assignors authorize and request the patent office of any country to issue any patent granted from any of the above-referenced patent applications in the name of Assignee or its designee, and Assignors further authorize Assignee to insert the serial number and filing date of each above-identified patent application into this Assignment if unknown upon execution of this Assignment;

AND, Assignors hereby warrant and covenant that Assignors have not and will not execute any assignment or other instrument in conflict with this Assignment;
