**ASSIGNMENT**

WHEREAS, as a below named inventor, I have invented certain new and useful improvements in  
for which a United States Patent application was filed on April 8, 2022, and bears Application Number  
17/716,249 entitled FLEXIBLE INSPECTION ROBOT FOR INDUSTRIAL ENVIRONMENTS;

for which an international application was filed on April 8, 2022, and bears Application Number  
PCT/US2022/023993 entitled FLEXIBLE INSPECTION ROBOT;

(hereinafter "Application(s)")

WHEREAS, Gecko Robotics, Inc., a corporation of the State of Delaware, having a place of  
business at 6101 Penn Avenue, Pittsburgh, PA 15026, (hereinafter the "Assignee"), has acquired, or is  
desirous of acquiring, the entire right, title, and interest in and to (i) the Application(s), (ii) the inventions and  
improvements therein disclosed and (iii) any subsequent improvements thereto ((i), (ii) and (iii) collectively,  
the "Inventions").

NOW, THEREFORE, for good and valuable consideration paid to me by, or on behalf of, the  
Assignee, the receipt and sufficiency of which are hereby acknowledged, I as a named inventor (hereinafter  
the "Assignor"), do hereby confirm my previous assignment, sale and/or transfer to the Assignee, or if no  
such previous assignment, sale and/or transfer occurred, do hereby assign, sell and transfer unto the  
Assignee the full and exclusive right, title and interest in and to the Inventions for the United States and all  
foreign countries and any Letters Patent which may issue therefor in the United States and all foreign  
countries, and all conversions, divisions, reissues, continuations, continuations-in-part, renewals and/or  
extensions thereof (the "Subsequent Filings"). Such assignment also includes the right to claim priority to  
the Application(s) and Subsequent Filings under any law, rule, treaty, or convention. Such assignment  
extends to the full end(s) of the term(s) of the Application(s), such Letters Patent and any Subsequent  
Filings as fully and entirely as the same would have been held and enjoyed by me had assignment not  
been made. Said full and exclusive right, title, and interest referred to above includes all rights to all past,  
present and future claims for infringement of any patent resulting from the Inventions including the right to  
grant licenses, to bring lawsuits, and to recover damages for any past, present, and future infringement,  
whether known or unknown, now existing or hereafter arising.

I, as a named inventor, covenant that, at the time of my assignment, I was or am a lawful owner of  
the Inventions and had or have the full right to make assignment of the Inventions. I further covenant that  
the Inventions are unencumbered, and that no license has been granted to make, use, import, offer for sale  
or sell the Inventions.

And for the consideration aforesaid, I agree individually and, if applicable, jointly, that I will  
communicate to the Assignee or the representatives thereof any facts known to me respecting the  
Inventions, and will, upon request but without expense to me, testify in any legal proceedings, sign all lawful  
papers, execute all documents in connection with the Application(s) and any Subsequent Filing, make all  
rightful oaths and declarations, and generally do all other and further lawful acts deemed necessary or  
expedient by the Assignee or by counsel for the Assignee to assist or enable the Assignee to obtain and  
enforce full benefits from the rights and interests assigned. My assignment shall be binding upon my heirs,  
executors, administrators and/or assigns, and shall inure to the benefit of the heirs, executors,  
administrators, successors and/or assigns, as the case may be, of the Assignee.

The Commissioner of Patents and Trademarks is hereby authorized and requested to issue patents  
to the Assignee in accordance with the terms of my assignment.
