CONFIRMATORY ASSIGNMENT

Whereas, WE, **Christopher Weikart, Murray Stephen Bennett and Jean-Pierre Giraud**, hereinafter referred to as the (“Assignors”), have invented one or more invention(s) described in the following applications (together “Applications”):

- (1) Provisional Patent Application No. 62/257,208 filed on November 18, 2015, entitled “PHARMACEUTICAL PACKAGE FOR OPHTHALMIC FORMULATIONS”;
- (2) International Patent Application No. PCT/US2016/062885, filed on November 18, 2016, entitled “PHARMACEUTICAL PACKAGE FOR OPHTHALMIC FORMULATIONS”;

WHEREAS, **SiO2 Medical Products, Inc.** (hereinafter "Assignee"), having principal offices at **2250 Riley Street, Auburn, Alabama 36832**, has acquired Assignors’ entire right, title and interest in the Applications in accordance with agreements duly entered into with Assignors and/or in accordance with Assignors’ terms of employment assigning all of Assignors’ right, title and interest in Assignors’ invention(s) and in these Applications to Assignee;

NOW, THEREFORE, in consideration of said agreements and of other good and valuable consideration, the receipt of which is hereby acknowledged, Assignors confirm that Assignors have sold, assigned and transferred and by these presents do hereby sell, assign and transfer unto said Assignee, their successors, assigns and legal representatives, Assignors’ entire right, title and interest in and throughout the United States of America, their territories and all foreign countries, in and to said Applications (and any and all of Assignors’ invention(s) described therein) and all patent applications that may be filed claiming the benefit to and/or priority from those Applications, including any continuation, continuation-in-part, divisional and foreign counterparts thereof and any substitute applications therefor, and any patents as may issue thereon, and any reissues and revivals of the same, (together with Applications “applications and patents”) and including the right to claim priority under any applicable statute, treaty or convention based on said Applications or Assignors’ invention(s) therein; said invention(s), right of priority,

applications and patents to be held and enjoyed by said Assignee for its own use and for that of its successors, assigns and legal representatives, to the full end of the term for which said patents may be granted as fully and entirely as the same would have been held by Assignors had this assignment not been made. Assignors also hereby convey all rights arising under or pursuant to any and all international agreements, treaties or laws relating to the protection of industrial property by filing such applications, all choses in action pertaining to the applications and patents including the right to sue for and collect damages and other recoveries for past infringement thereof, all rights to initiate proceedings before government and administrative bodies, and all files, records and other materials arising from the prosecution, exploitation, or defense of rights and registrations pertaining to the applications and patents. Assignors hereby acknowledge that this assignment, being of Assignors' entire right, title and interest in and to said invention(s), applications and patents, carries with it the right in Assignee to apply for and obtain from competent authorities in all countries of the world any and all patents by attorneys and agents of Assignee's selection and the right to procure the grant of all such patents to Assignee for its own name as Assignee of Assignors' entire right, title and interest therein;

AND, Assignors hereby further agree for Assignors and Assignors' executors and administrators to execute upon request any other lawful documents and likewise to perform any other lawful acts which may be deemed necessary to secure fully the aforesaid right of priority, invention(s), applications and patents to said Assignee, its successors, assigns and legal representatives, including the execution of applications for patents of the United States and all foreign countries, and the execution of substitute, reissue, divisional, continuation or continuation-in-part applications and preliminary or other statements and the giving of testimony in any interference, derivation or other proceeding in which said invention(s) or the applications and/or patents may be involved;

AND, Assignors do hereby authorize and request the Commissioner of Patents of the United States and the respective patent offices in all foreign countries to issue such patents as shall be granted upon said Applications or applications based thereon or claiming right to priority thereto, to said Assignee, its successors, assigns, and legal representatives.
