ASSIGNMENT

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, **GARY J. TENNYSON**, a citizen of the United States and a resident of Birmingham, Alabama, and **FLOYD D. ROHNER**, a citizen of the United States and a resident of Vestavia Hills, Alabama, (the foregoing, collectively, "Assignors"), hereby assign, transfer, sell and convey to **TELCO SALES, INC.**, having a principal place of business located at 118 Hilltop Business Drive, Pelham, Alabama 35124, its successors, assigns and nominees (the foregoing, collectively, "Assignee"), all of Assignors' right, title, and interest in and to the invention entitled "**APPARATUS FOR DETECTION OF PACKET ENERGY TRANSFER IN CABLES AND RELATED METHODS**" (the "Invention"), such right, title and interest including, but not limited to, all rights in U.S. Patent Application No. 63/282,339, filed on November 23, 2021, and in any other patent applications directed to the Invention, and all letters patent of the United States which may be granted therefor, and all divisions, continuations, continuations-in-part and re-issues thereof, and all applications and patent rights for the Invention in foreign countries, including the subject matter of any and all claims which may be obtained in every such patent, and authorize and request the U.S. Patent & Trademark Office and any foreign patent offices to issue all patents on the Invention or resulting therefrom to Assignee, as assignee of the entire interest, for its own use and benefit, and Assignors represent, warrant and covenant that they have a full right to do so and that they have not executed and will not execute any agreement in conflict herewith, and agree that they will communicate to Assignee or its designated representatives, all facts known to them respecting the Invention whenever requested, and testify in any legal proceedings, sign all lawful papers, execute all divisional, continuing and reissue applications, make all rightful oaths, and generally do everything necessary to aid Assignee to obtain and enforce proper patent protection for the Invention in all countries. This Assignment can be executed in counterparts, each of which shall be considered an original and effective as against the signatory thereto, and all of which shall together constitute one and the same instrument.
