WHEREAS, **Baker Hughes Oilfield Operations LLC**, a Limited Liability Company of Delaware, having its principal place of business located at 17021 Aldine Westfield, Houston, Texas 77073, is desirous of acquiring the entire right, title and interest in and to Application and to all inventions set forth therein and to all patent applications directed to such inventions throughout the world, and all right, title and interest in, to and under any and all patents granted thereon and other forms of legal protection thereto in the United States and throughout the world;

NOW, THEREFORE, for and in consideration of the sum of One Dollar (\$1.00) and for other good and valuable consideration, the receipt of which is hereby acknowledged, we hereby sell, assign, transfer and set over to **Baker Hughes Oilfield Operations LLC**, all right, title and interest in and to the said invention throughout the world, including said Application for U.S. Patent, and any and all applications which claim benefit thereto, including any and all applications filed outside of the U.S. which claim priority to Application as well as all patents of the United States and foreign countries which may be granted therefrom including any reissues, divisionals, continuations, continuations-in-part, renewals and extensions and the like (collectively, the “Patents”), the same to be held and enjoyed by **Baker Hughes Oilfield Operations LLC** for its own use and benefit, and for the use and benefit of its successors, assigns, or other legal representatives, to the end of the term or terms for which said Patents of the United States or foreign countries are or may be granted or reissued, as fully and entirely as the same would have been held and enjoyed by us if this assignment and sale had not been made.

And we hereby authorize and request the Commissioner of Patents and other authorities in foreign countries to issue any and all patents on said invention or resulting from said Application, including patents issued from applications which claim the benefit thereto as well as any and all divisions, continuations, continuations-in-part, and reissues thereof, to **Baker Hughes Oilfield Operations LLC**, as assignee of our entire interest, and hereby covenant that we have the full right to convey the entire interest herein assigned, and that we have not executed and will not execute any agreement in conflict herewith.

And we further hereby covenant and agree that we will, at any time, upon request, execute and deliver any and all papers that may be necessary or desirable to perfect the title of said invention and to such patents as may be granted therefor, to **Baker Hughes Oilfield Operations LLC**, its successors, assigns, or other legal representatives and that if **Baker Hughes Oilfield Operations LLC**, its successors, assigns or other legal representatives shall desire to file any

application which claims the benefit of Application, including any divisional, continuation, or continuation-in-part applications or to secure a reissue of such patents, or to file a disclaimer relating thereto, will upon request, sign all papers, make all rightful oaths and do all lawful acts requisite for the filing of such applications, or such application for reissue and the procuring thereof, and for the filing of such disclaimer, without further compensation but at the expense of said assignee, its successors, or other legal representatives.

And we do further covenant and agree that we will, at any time upon request, communicate to **Baker Hughes Oilfield Operations LLC**, its successors, assigns or other legal representatives, such facts relating to said invention and patents or the file history thereof as may be known to me when requested so to do, without further compensation but at the expense of said assignee, its successors, or other legal representatives.
