### ASSIGNMENT

WHEREAS, Driving Innovation GmbH, a German company with limited liability having a place of business at Steinbachstr. 7, 52074 Aachen, Germany, hereinafter referred to as Assignor, is the sole owner, by way of an assignment from fka GmbH, dated November 4, 2022, of an invention entitled:

#### "ACTUATING PART AND CONTROL FOR A MOTOR VEHICLE"

which is set forth in United States Patent Application No. 16/330,880 filed on March 6, 2019, which application issued as United States Patent No. 11,097,766 on August 24, 2021;

and WHEREAS, Race-by-Wire GmbH, (hereinafter referred to as Assignee), a German company with limited liability having a place of business at Otto-Lilienthal-Str. 36, 71034 Boeblingen, Germany, is desirous of acquiring the entire right, title, and interest in and to the invention, the patent application, in all U.S. and/or foreign patent applications filed therefore, and/or in all patents that have been or may be obtained therefore, including United States Patent No. 11,097,766;

NOW, THEREFORE, in consideration of good and valuable consideration, the receipt of which is hereby acknowledged, the Assignor does hereby assign, transfer, and set over unto the Assignee, its successors, and assigns, the entire right, title, and interest in and to: the invention, in any form or embodiment thereof; the aforesaid patent application; any patent application in this or any foreign country for the invention, including any provisional patent application to which the aforesaid patent application claims priority and including the right to file international patent applications; and any patents or reissues or extensions thereof for the invention in this or any foreign country, including United States Patent No. 11,097,766, and any divisional, continuation, continuation-in-part or substitute applications which may be filed upon the invention in this or any foreign country;

AND Assignor acknowledges an obligation of assignment of the invention and the patent application to the Assignee at the time the invention was made;

AND Assignor hereby agrees that the Assignor, its successors, assigns or other legal representatives will at any time upon the request and at the expense of the Assignee, its successors, assigns, or other legal representatives, without undue delay and without payment or compensation by Assignee, execute and deliver any and all papers and do all lawful acts that may be necessary or desirable to perfect the title to the invention, the patent application, and any U.S. and/or foreign patent applications and/or patents that may be obtained therefore;

AND Assignor hereby authorizes and requests the Commissioner of Patents of the United States Patent & Trademark Office, and any official of any country foreign to the

United States whose duty it is to issue patents, to issue any patent and any reissues and extensions thereof to the Assignee in accordance with this Assignment;

AND Assignor hereby grants to the Assignee the full right to sue for and recover all profits and damages recoverable for past infringement of the invention, the patent application, and any U.S. and/or foreign patent applications or patents that may be obtained for the invention, for Assignee's use and behalf and for the use and behalf of Assignee's successors, assigns and other legal representatives;

AND Assignor hereby represents and warrants that the Assignor has the full right to convey the entire interest of the invention and the patent application herein assigned and has not granted any rights inconsistent with the rights granted herein; and

AND Assignor hereby authorizes and requests any attorney or agent who has Power of Attorney with respect to the patent application, to insert above the filing date and application number of the above-identified patent application when the filing date and patent application number become known.

Dated: Nov. 11<sup>th</sup>, 2022
