ASSIGNMENT

WHEREAS, we, Rinaldo S. Brutoco, a resident of Santa Barbara, California, Robert H. Shelton, a resident of Santa Barbara, California, and Michael R. Everman, a resident of Santa Barbara, California (hereinafter referred to collectively as "Assignors"); have made an invention described in the following applications for Patent:

- Provisional U.S. Patent Application No. 63/280,368, filed on November 17, 2021 and entitled "IMPROVED SYSTEM, METHOD AND APPARATUS FOR AIRSHIP MANUFACTURE USING ROBOTICS"; and
- A U.S. Patent Application and Patent Cooperation Treaty (PCT) Application to be filed on or about November 17, 2022, such application claiming priority to the earlier Provisional U.S. Patent Application No. 63/280,368.

WHEREAS, H2 Clipper, Inc., a private company organized and existing under the laws of California, having its principal place of business at 1101 Anacapa Street, Suite 200, Santa Barbara, California 93101 (hereinafter referred to as "Assignee"), is desirous of acquiring right, title and interest in said invention.

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged by the undersigned, Assignors by these presents, do sell, assign and transfer to Assignee, Assignors' entire right, title and interest, for the United States of America and its possessions and territories and for all foreign countries, in and to said Inventions, including all rights of priority created and conferred by any treaty or international convention which is available in connection with said invention, including the right to apply for patent rights, U.S. or foreign, and in any continuations, continuations-in-part, divisions, substitutes, renewals, reissues or other applications filed in the U.S. or abroad (including multinational filing arrangements of all kinds), and in any U.S. or foreign patents issued on any such applications and reissues, extensions and renewals thereof, to be held and enjoyed by Assignee, for its own use and behalf and for its successors and assigns, to the full ends of the terms or extended terms for which any Letters Patents or the like may be granted, as fully and entirely as the same would have been held by Assignors had this sale, assignment and transfer not been made.

Assignors hereby authorize and request the Commissioner of Patents of the United States, and any official of any country or countries (including multinational filing arrangements of all kinds), whose duty it is to receive and/or examine applications for patents or similar intellectual/industrial property, issue patents or other evidence or forms of intellectual/industrial property protection on applications as aforesaid, to issue the same to Assignee, its successors and assigns, in accordance with the terms of this instrument.

Assignors covenant with Assignee, its successors, assigns, and legal representatives that Assignors have full right to convey the entire interest herein assigned, and that Assignors have not executed any agreement in conflict herewith and will not execute any agreement or conveyance in conflict herewith.

Assignors further covenant and agree to communicate to Assignee, its successors, legal representatives and assigns, any facts known to Assignors respecting said Inventions, and testify in any legal proceeding, sign all lawful papers, including, without limitation, application papers, assignments, powers of attorney, declarations, and other instruments, execute all divisional, continuing, substitute, reissue, renewal and foreign applications, make all truthful oaths, declarations and statements, and generally do everything reasonably requested of Assignors by Assignee, or its successors or assigns to aid Assignee, its successors or assigns, to obtain, enforce and/or exploit said Inventions.

Executed this 5th day of November, 2022.
