## ASSIGNMENT

WHEREAS, I, Josh Gottesman, hereinafter generally referred to individually as "ASSIGNOR", have invented certain new and useful inventions entitled:

### **"Dry Powder Medicament Inhaler"**

that are claimed and/or described in UK Patent Application No. 2111658.7 filed August 13, 2021; UK Patent Application No. 2113921.7 filed September 29, 2021; and UK Patent Application No. 2200986.4 filed January 26, 2022 ("Inventions").

WHEREAS, Crux Product Design Ltd., a corporation having a place of business at Flatiron Building, 332-336 Paintworks, Bath Road, Bristol, Avon, BS4 3AR, United Kingdom hereinafter generally referred to as "ASSIGNEE," is desirous of memorializing and confirming, or if necessary acquiring, legal and equitable title in the Inventions.

WHEREAS, ASSIGNOR invented the Inventions while performing work for ASSIGNEE, and ASSIGNOR believes they have previously assigned all of their rights in the Inventions to the ASSIGNEE.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged and intending to be legally bound hereby, ASSIGNOR confirms that ASSIGNOR intended to assign and assigned all of ASSIGNOR's right, title, and interest in and to the Inventions to ASSIGNEE; and

To the extent ASSIGNOR retained any right, title, or interest in or to the Inventions, ASSIGNOR agrees to sell, assign, transfer and convey and hereby does sell, assign, transfer and convey unto ASSIGNEE, the whole and entire right, title and interest in and to:

all Inventions;

UK Patent Application No. 2111658.7 filed August 13, 2021; UK Patent Application No. 2113921.7 filed September 29, 2021; and UK Patent Application No. 2200986.4 filed January 26, 2022;

U.S. Patent Application No. 17/968,555, filed on October 18, 2022, U.S. Patent Application No. 17/968,921, filed on October 18, 2022, and U.S. Patent Application No. \_\_\_\_\_, filed on \_\_\_\_\_, that each claim priority to one or more of the foregoing applications (which ASSIGNOR hereby authorizes the law firm of Morgan, Lewis & Bockius, LLP to identify by inserting the application number and filing date in space provided above);

the above patent applications and any and all United States and foreign patent applications disclosing one or more of the Inventions including, without limitation, applications for patents including provisionals, non-provisionals, divisions, continuations, continuations-in-part, utility models, PCT applications and designs and any other related United States and foreign applications and equivalents thereof ("Applications"), along with the right to claim priority to the Applications under any treaty relating thereto;

all United States and foreign patents, utility models, inventor's certificates and designs and all equivalents thereof which may be granted for the Inventions or Applications, and all post-grant actions including extensions, renewals, reissues, reexamination certificates, post-grant review certificates, inter partes review certificates, and supplemental examination certificates thereof ("Patents"); and

all rights to sue for and collect damages resulting from past, present and future infringement of all Patents.

The Inventions, Applications and Patents to be held and enjoyed by ASSIGNEE, for ASSIGNEE's own use and benefit, and for ASSIGNEE's legal representatives and assigns to the full end of the term or terms of said granted or to be granted Patents, as fully and entirely as the same would have been held by ASSIGNOR had this assignment not been made; and for the aforesaid consideration ASSIGNOR hereby covenants, agrees and undertakes to execute, whenever requested by the above-named ASSIGNEE, all patent applications, assignments, declarations, lawful oaths and any other papers which ASSIGNEE may deem necessary or desirable for securing to ASSIGNEE or for maintaining for ASSIGNEE all the Applications and Patents hereby assigned or agreed to be assigned; all without further compensation to the undersigned ASSIGNOR.

It is agreed that ASSIGNOR shall be legally bound, upon request and at the expense of ASSIGNEE or its successors or assigns or a legal representative thereof, to supply all information and evidence of which the undersigned has knowledge or possession, relating to the making and practicing of the Inventions, and to testify in any legal proceeding relating thereto.

ASSIGNOR hereby represents and warrants that they have full right, power and authority to assign their entire right, title, and interest in the Inventions, Applications, and Patents, and no assignment, sale, agreement, or encumbrance has been or will be made or entered into which would conflict with this Assignment.

This Assignment has been duly executed and delivered and constitutes a valid, binding and enforceable assignment of the entire right, title, and interest in the Inventions, Applications, and Patents.
