---

### PARTIES TO THE ASSIGNMENT:

#### Assignor(s) (Inventor(s)):

Name of Assignor: **Sean CULVER**  
City and State of Residence: **Boulder, Colorado, United States**  
Citizenship: **United States**

#### Assignee:

**Solid Power, Inc.**  
**486 S. Pierce Ave., Suite E**  
**Louisville, Colorado, 80027**  
**United States of America**

### PATENT APPLICATION(S) SUBJECT TO THE ASSIGNMENT (the "Application(s)"):

Provisional Patent Application No.: **63/140,624**  
Filing Date: **January 22, 2021**  
Title: **METHOD OF PRODUCTION OF A WATER-REACTIVE SULFIDE MATERIAL**  
Attorney Docket No.: **112948-717987**

WHEREAS, the Assignor(s) identified above have invented certain new and useful inventions for which the Application(s) for Letters Patent identified above have been prepared for filing with the United States Patent and Trademark Office;

NOW THEREFORE, for good and valuable consideration, including at least \$1.00 in hand paid, the receipt and sufficiency of which is acknowledged, Assignor(s) have agreed to assign and transfer and do hereby assign and transfer unto the Assignee and its successors and assigns, the entire right, title, and interest in and to the Application(s) and the invention set forth in the Application(s), and any and all Letters Patent that may be granted upon the information which is disclosed in the Application(s), including any provisional or non-provisional application to which said Application(s) claims priority from, and in and to any United States of America and foreign applications that claim priority to the Application(s), any divisional or continuation (in whole or in part) of said Application(s), and in and to any and all improvements in said invention made by Assignor(s) (provided any such improvement is made during, or within one year after, of the employment by said Company of Assignor(s)), and in and to any and all Letters Patent, reexaminations, reissues, or extensions thereof, of the United States of America and countries foreign thereto including the right to apply for Letters Patent, Utility Models, or Inventors' Certificates in the United States of America and all foreign countries in its own name and any priority rights for such United States of America and foreign applications to which such applications or the Assignor(s) are entitled under international conventions, treaties, or otherwise which have been or may be granted thereon or on any divisional, continuation (in whole or in part), renewal, reexamination, reissue, or other or further application based in whole or in part upon said invention or improvements thereon, and any and all rights to collect present, past, or future damages for infringement or other unauthorized use, along with the right to use or obtain other relief of any and all Letters Patent of the United States and countries and regions foreign

thereto which may be published, to be held and enjoyed as fully and exclusively as they would have been by me had this assignment and transfer not been made (the "Assigned Patent Rights");

Assignor(s) authorize and empower the Assignee, its successors, assigns and legal representatives and nominees, to invoke and claim for any application for patent or other forms of protection for said inventions filed by it or them, the benefit of the right of priority provided by the International Convention for the Protection of Intellectual Property, as amended, or by any convention which may henceforth be substituted for it, and to invoke and claim such right of priority without further written or oral authorization from us;

Assignor(s) hereby consent that a copy of this assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file or like document which may be required in any country for any purpose and more particularly in proof of the right of the said Assignee or nominee to claim the aforesaid benefit of the right of priority by the International convention which may henceforth be substituted for it;

Assignor(s) further agree for Assignor(s) and for Assignor's heirs, executors, and administrators, to execute and deliver without further consideration any further applications, assignments, and documents, and to perform such other acts as deemed necessary by said Assignee, its successors, assigns, and nominees, fully to secure its right, title, and interest in the Assigned Patent Rights as aforesaid and to otherwise obtain or maintain Letters Patent, Utility Models, or Inventors' Certificates in any and all countries;

Assignor(s) agree this Patent Assignment may be executed and delivered by electronic signature(s) (including but not limited to an image of a manually executed signature transmitted by email or other electronical means in various possible forms such as PDF, TIF and JPG as well as signatures executed by way of DocuSign, AdobeSign or other e-signature programs) and any form of signature appearing on this Patent Assignment is the same as a handwritten signature for the purposes of validity, enforceability and admissibility, for any purpose in the United States and countries and regions foreign thereto as well as any proceedings related to the Assigned Patent Rights;

Assignor(s) hereby authorize Assignee, its successors and assigns, or anyone it may properly designate, to insert in this instrument the title, application number and filing date of the Application(s) once known;

Assignor(s) hereby acknowledge that Assignee's internal and external counsel have represented only Assignee and will continue to represent only Assignee;

Assignor(s) hereby acknowledge an obligation of assignment and transfer of this invention and Application(s) to Assignee at the time the invention was made;

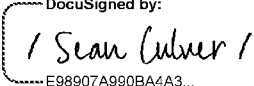

Assignor(s) represent and warrant that Assignor(s) have the right, title, and authority to execute this Patent Assignment and to convey any and all right, title, and interest in the Assigned Patent Rights, and that Assignor(s) have not conveyed nor will convey hereafter all or part of the Assigned Patent Rights to a third party; and

Assignor(s) hereby authorize and request the Commissioner of Patents to issue any and all Letters Patent which may be granted upon of said Application(s), to said Assignee, as the assignee of the entire right, title, and interest therein.
