Safran Passenger Innovations LLC

**Sushmit Bhattacharjee**

RE: Assignment of Rights re "Systems and Methods for Smart Broadcast for Multicast Communication over an IP-based TDMA Network"

Dear Sushmit,

We claim the above mentioned invention. Hence, all rights are now merged to Safran Passenger Innovations LLC ("the company" or "we").

The invention has been filed as a PCT patent application having serial number PCT/US20/44318 filed on July 30, 2020, which claims priority to U.S. provisional application having serial number 62/880,355 filed on July 30, 2019. We will inform you about the progress of these cases.

In order to accelerate and simplify formal processes, we offer the following regulation in view of the above mentioned invention.

With your signature you resign your rights for filing an application in your name for this invention in all countries in which the company does not file applications.

Moreover, you resign with your signature from demanding transfer of rights to you for prosecuting the right on your own costs. This applies in case one or more of the filed applications or granted property rights are abandoned or not further prosecuted by the company.

Therefore, and in order to value your work, the company will pay you if it hasn't already the sum set forth in the company's employment manual.

This is the amount which corresponds to your share on the invention, which is 33%, as stated on the invention disclosure.

This amount will not be deducted from a later inventor's compensation which might be paid due to legal requirements.

Please keep the original and send a signed copy of this letter and the enclosure to Steve Hawkins at your earliest convenience.

Agreed on 30-11-, 2021
