## ASSIGNMENT

WHEREAS, we, Brandon N. Hinderliter, Jared Oehring and Steven Riley, citizens of the United States of America, are the inventors of HIGH CAPACITY POWER STORAGE SYSTEM FOR ELECTRIC HYDRAULIC FRACTURING, for which an application for United States Letters Patent was filed on August 1, 2019 as Application Serial No. 62/881,714, and on July 30, 2020, as Application Serial No. 16/943,727; and

WHEREAS, U.S. Well Services, LLC, a Texas Corporation, with a business address of 1360 Post Oak Boulevard, Suite 1800, Houston, Texas 77056, hereafter "Assignee," is desirous of acquiring the entire right, title, and interest in and to the aforesaid invention throughout the world, and all right, title, and interest in, to and under any and all Letters Patent of the United States and all other countries throughout the world;

NOW, THEREFORE, be it known that, for good and valuable consideration, the adequacy, receipt, and legal sufficiency of which from Assignee are each hereby acknowledged, we, as Assignor, sells, assigns, transfers, and sets over to Assignee, all right, title, and interest in and to said invention throughout the world, and said application for U.S. Letters Patent, and any and all divisions, continuations, continuations-in-part, reissues, extensions, reexaminations, post-grant proceeding, or other inter-parties review proceedings thereof, and any and all Letters Patent of the United States and foreign countries which may be granted therefor, the same to be held and enjoyed by them for their own use and benefit, and for the use and benefit of their successors, assigns, or other legal representatives, to the end of the term or terms for which said Letters Patent of the United States or foreign countries are or may be granted, reexamined, or reissued, as fully and entirely as the same would have been held and enjoyed by we if this assignment and sale had not been made.

And we hereby authorize and request the Commissioner of Patents and Trademarks to issue any and all Letters Patent of the United States and any foreign patent offices on said invention or resulting from said application and from any and all divisions, continuations, continuations-in-part, reissues, extensions, reexaminations, post-grant proceeding, or other inter-parties review proceedings thereof, to Assignee, as assignee of the entire interest, and hereby covenant that we have the full right to convey the entire interest herein assigned, and that we have not executed and will not execute any agreement in conflict herewith.

And we further hereby covenant and agree that we will, at any time, upon request, execute and deliver any and all papers that may be necessary or desirable to perfect the title of said invention and to such Letters Patent as may be granted therefor, to Assignee or its successors, assigns, or other legal representatives and that if Assignee or its successors, assigns, or other legal representatives shall desire to file any divisional or continuation applications or to secure a reexamination or reissue of such Letters Patent, or to file a disclaimer relating thereto, will, upon request, sign all papers, make all rightful oaths, and do all lawful acts requisite for the filing of such divisional or continuation application, or such application for reissue and the procuring thereof, and for the filing of such disclaimer, without further compensation but at the expense of Assignee or its successors, assigns, or other legal representatives.

And we do further covenant and agree that we will, at any time upon request, communicate to Assignee or its successors, assigns, or other legal representatives, such facts relating to said invention and Letters Patent or the file history thereof as may be known to me, and testify as to the same in any interference, litigation, or other proceeding when requested so to do, without further compensation but at the expense of Assignee or its successors, assigns, or other legal representatives.
