ASSIGNMENT

For good and valuable consideration, the receipt of which is hereby acknowledged, the undersigned Inventor: Katherine Joyce OGLESBY hereby sells and assigns to **PHYTO TECH CORP.**, a corporation formed under the laws of California, having an office and place of business at 30111 Tomas, Rancho Santa Margarita, CA 92688 (hereafter referred to as the "Assignee"), his/her entire right, title and interest for the United States of America (as defined in 35 U.S.C. § 100), and throughout the world,

(a) in each of the Patents and/or Patent Applications that are described in detail in Schedule A, annexed hereto and made a part hereof, and

(b) in any and all applications that claim the benefit of the Patents and/or Patent Applications described in detail in Schedule A, including non-provisional applications, continuing (continuation, divisional, or continuation-in-part) applications, reissues, extensions, renewals, and reexaminations of such Patents and Patent Applications, to the full extent of the term or terms for which Letters Patents issue, and

(c) in any and all inventions described in each of the Patents and/or Patent Applications that are described in detail on Schedule A, and in all forms of intellectual and industrial property protection derivable therefrom, and that are derivable from any and all continuing applications, reissues, extensions, renewals and reexaminations of such Patents and Patent Applications, including, without limitation, patents, applications, utility models, inventor's certificates, and designs together with the right to file applications therefor; and including the right to claim the same priority rights from any previously filed applications under the International Agreement for the Protection of Industrial Property, or any other international agreement, or the domestic laws of the country in which any such application is filed, as may be applicable;

all such rights, title and interest to be held and enjoyed by the above-named Assignee, its successors, legal representatives and assigns to the same extent as all such rights, title and interest would have been held and enjoyed by the undersigned Inventor had this assignment and sale not been made.

The undersigned Inventor agrees to execute all papers necessary in connection with the applications and Letters Patents as above, and any non-provisional, continuing (continuation, divisional, or continuation-in-part), reissue, reexamination or corresponding applications thereof and also to execute separate assignments in connection with such applications as the Assignee may deem necessary or expedient.

The undersigned Inventor agrees to execute all papers necessary in connection with any judicial or administrative proceeding, including but not limited to an interference, derivation, postgrant proceeding, or patent enforcement action (judicial or otherwise) related to the application(s) or any non-provisional, continuing (continuation, divisional, or continuation-in-

part), reissue or reexamination application(s) thereof or Letters Patent(s) therefor and to cooperate with the Assignee in every way possible in obtaining evidence and assisting with such judicial or administrative proceeding.

The undersigned Inventor hereby represents that he/she has full right to convey the entire interest herein assigned, and that he/she has not executed, and will not execute, any agreement in conflict therewith.

The undersigned Inventor hereby grants the patent practitioners associated with **CUSTOMER NUMBER 26111** the power to insert in this assignment, including the attached Schedule A, any further information regarding the patents and patent applications so identified in such Schedule A that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

The undersigned Inventor hereby represents that he/she understands that the patent practitioners associated with **CUSTOMER NUMBER 26111** are legal representatives of, and attorneys for, the Assignee, and are NOT the legal representatives of, and attorneys for, the Inventor.

This Assignment may be executed in counterparts, each of which will be deemed an original, but all of which together will be deemed to be one and the same Assignment. A signed copy of this Assignment delivered by e-mail or other means of electronic transmission will be deemed to have the same legal effect as delivery of an original signed copy of this Assignment.

IN WITNESS WHEREOF, executed by the undersigned Inventor on the date opposite his/her name.

Date: 10/12/2022
