PATENT APPLICATION ASSIGNMENT OF RIGHTS

Donna Lee Elizabeth Lehtonen of Schomberg, ON, Canada ("Assignor") is the owner of the inventions as described in the U.S. Patent Applications and the U.S. Patents, each listed in Schedule A attached, signed by Assignor, and filed in the U.S. Patent and Trademark Office (hereinafter "the Patent Applications").

NO SACRIFICE BAGS INC. of 15805 7TH CONCESSION, King, Ontario L7B 0G4, Canada, ("Assignee") desires to acquire all rights in and to the Patent Applications and the patents (and any reissues or extensions) that may be granted.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignor assigns to Assignee 100% of their right, title, and interest in the invention and the Patent Applications (as well as such rights in any divisions, continuations in whole or part, or substitute applications) to Assignee for the entire term of the issued Patents and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part or substitute applications) filed claiming the benefit of any of the Patent Applications, acknowledging that a similar assignment may have already been executed for some places outside the United States and reaffirming my intent.

Assignor authorizes the United States Patent and Trademark Office to issue any Patents resulting from the Patent Applications to Assignee according to the percentage interest indicated in this assignment. The right, title, and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) cooperate with Assignee in the prosecution of the Patent Applications and foreign counterparts; (b) execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patents for the invention in any and all countries.
