Inventors 1 to 13 inclusive shall hereafter be known as the **"Inventors"**.

The Inventors hereby assign to the Assignee (or confirm the assignment of, as appropriate) all and any title, rights and interest they may have in and to (a) any and all inventions, patents and patent applications set out above and (b) any interest they may have in the grant of a patent or other intellectual property right anywhere in the world in respect of said inventions, patents and patent applications set out above, (c) all accrued rights including any rights to claim priority from any of the said inventions, patents and patent applications set out above and (d) any rights to claim relief from third parties in respect of any infringement of the patents (and inventions and patent applications) which may have occurred before the date of this assignment.

The Inventors hereby covenant and agree that they will at any time, upon the request of the Assignee, execute and deliver any and all paperwork and do all lawful acts that may be necessary or desirable to perfect title to the assigned rights and any subsequent patent applications or patents claiming priority from any of the assigned rights in part or in full, whether to the Assignee or its nominee. The Inventors hereby authorise the comptroller or equivalent officer of any country's respective patent and/or trade mark and/or intellectual property office to grant any patent to the Assignee (or its nominee) for which they are an inventor.

The Inventors hereby irrevocably appoint the Assignee to act in each and all of their names and on each or all of their behalf execute documents and do all things which are necessary or desirable for the Assignee to obtain for itself (or its nominee) the full benefit of this assignment and any covenant set out above.

The parties to this agreement agree to use a digital signature platform in order to execute and deliver this Deed in any number of counterparts, any fully executed digital copy of which shall constitute an original.
