**JOINT ASSIGNMENT  
FOR UTILITY OR DESIGN PATENT APPLICATION**

As the below named inventors, we believe that we are the inventors of the subject matter disclosed in the application for patent (hereinafter “the invention or inventions”) identified herein as

**COORDINATING INFORMATION ACROSS MULTIPLE DEVICES TO FACILITATE  
END-OF-DAY DISMISSAL AT A SCHOOL**

and further identified by Attorney Docket Numbers **13344.00003** and **13344.00004**,

- ☐ for which the undersigned have executed an application for patent in the United States of America on \_\_\_\_\_ and transmitted herewith;
- ☒ United States provisional application Serial No. 62/731,419, filed on September 14, 2018; and
- ☒ United States Application Serial No. 16/571,110, filed on September 14, 2019.

In accordance with our obligation(s) under certain employment agreements and/or in consideration of other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, each of the undersigned,

First Name	Middle Name	Last Name		Town	State	Country
Brian		Lynn	Of	Atlanta	GA	US
Cara		Buchanan Whipple	Of	Atlanta	GA	US

agrees to assign, and hereby does assign, transfer, and set over to,

Queful, LLC

an entity organized under the laws of Georgia, (hereinafter designated as the “Assignee”) its successors and assigns, his or her entire respective right, title, and interest in the invention and/or inventions made or conceived by us as described in the application(s) for patent identified herein (the ‘application(s)’) in the United States, its territories, dependencies and possessions, his or her entire right, title, and interest in the application, and his or her entire right, title and interest in the invention or inventions as regards all other national jurisdictions and international entities that have the power to grant patents, wherever situated, including without limitation all applications for patent which claim priority to and/or the benefit of the subject matter disclosed in the application for patent identified herein, including any provisional application, utility application, design application, and/or plant application, as well as any continuation application, divisional application, continuation-in-part application, reissue application, reexamination application, patent interference proceeding, foreign national application and/or any application filed or to be filed under a patent treaty such as the International Convention for Protection of Industrial Property

design application, and/or plant application, as well as any continuation application, divisional application, continuation-in-part application, reissue application, reexamination application, patent interference proceeding, foreign national application and/or any application filed or to be filed under a patent treaty such as the International Convention for Protection of Industrial Property and/or the Patent Cooperation Treaty, and any Letters Patent which may be granted therefore in any jurisdiction.

In addition to the above assignment, the undersigned agrees to execute all papers necessary in connection with the application and any continuing applications, divisional applications, or continuations-in-part thereof, and also to execute separate assignments in connection with such applications as the Assignee may deem necessary or expedient.

The undersigned agrees to execute all papers necessary in connection with any interference which may be declared concerning this application or continuation or division thereof and to cooperate with the Assignee in every way possible in obtaining evidence and going forward with such interference.

The undersigned agrees to execute all papers and documents and perform any act which may be necessary in connection with claims or provisions of the International Convention for Protection of Industrial Property or similar agreements.

The undersigned agrees to perform all affirmative acts which may be necessary to obtain a grant of a valid United States patent to the Assignee.

The undersigned hereby authorizes and requests the Commissioner of Patents to issue any and all Letters Patents of the United States resulting from said application or any divisions or continuing applications thereof to the said Assignee, as Assignee of the entire interest, and hereby covenants that he or she has full right to convey the entire interest herein assigned, and that he or she has not executed and will not execute, any agreement in conflict herewith.

The undersigned hereby grants to any duly empowered legal representative, including specifically all patent practitioners associated with at least the Customer No. 125348, the power to insert on this assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office or with the rules of any other national or international Patent Office for recordation of this document or a true copy thereof.

In witness whereof, this instrument has been executed by the undersigned on the date opposite the respective name of the undersigned.
