ASSIGNMENT

AVANT-GARDE IP LLC (herein referred to as "ASSIGNOR") is the owner of the entire right, title and interest of the U.S. Patent Application entitled, Graphical User Interface (GUI) For Height and Rotational Adjustment System For a Plurality of Spray Guns Used in a Line Striper, as described in the U.S. Patent Application 17/060,054, filed on 09/30/2020 and assigned by Scott Ferguson and Ramraj Soundararajan on 07/27/2018. The Assignment was recorded at Reel 053941 and Frame 0223.

Whereas, RAID ONE IP LLC, a corporation, (herein referred to as "ASSIGNEE"), desires to acquire, and ASSIGNOR desires to grant to ASSIGNEE, the entire worldwide right, title, and interest in and to the Invention and in and to any and all patent applications and patents directed thereto;

Now, therefore, for good and valuable consideration, the receipt and sufficiency thereof being hereby acknowledged, ASSIGNOR hereby sells or has sold, assigns or has assigned, and otherwise transfers or has transferred to ASSIGNEE, its successors, legal representatives, and assigns, the entire worldwide right, title, and interest in and to the Invention, the above-identified United States patent application, and any and all other patent applications and patents for the Invention which may be applied for or granted therefor in the United States and in all foreign countries and jurisdictions, including all divisions, continuations, reissues, reexaminations, renewals, extensions, counterparts, substitutes, and extensions thereof, and all rights of priority resulting from the filing of such applications and granting of such patents.

In addition, ASSIGNOR hereby authorizes and requests the Director of the United States Patent and Trademark Office to issue any United States Patent, and foreign patent authorities to issue any foreign patent, granted for the Invention, to ASSIGNEE, its successors, legal representatives, and assigns, the entire worldwide right, title, and interest in and to the same to be held and enjoyed by ASSIGNEE, its successors, legal representatives, and assigns to the full end of the terms for which any and all such patents may be granted, as fully and entirely as would have been held and enjoyed by the undersigned had this Assignment not been made; and ASSIGNOR agrees to execute any and all documents and instruments and perform all lawful acts reasonably related to recording this Assignment or perfecting title to the Invention and all related patents and applications, in ASSIGNEE, its successors, legal representatives, or assigns.

ASSIGNOR hereby sells, assigns, and other transfers to ASSIGNEE, its successors and assigns all claims against third parties for past, present, and future infringement of the above-identified U.S. Patent No. for its entire term, including the right to recover for past, present, and future damages for such infringement. ASSIGNOR and ASSIGNEE mutually intend to transfer all rights in the above-identified U.S. Patent No. to ASSIGNEE such that ASSIGNOR does not retain any rights in the above-identified patent. ASSIGNEE shall have the right to any and all recoveries from any past, present, and future infringement, and ASSIGNOR hereby waives any interest in any recovery obtained by ASSIGNEE.

ASSIGNOR also hereby transfers all other rights, including the right to revive applications or patents, e.g. due to unintentional abandonment or otherwise, or any other provision derived from ASSIGNOR's past right, title and interest, which is now transferred.

DOCKET NUMBER: AG-20-003C

ASSIGNOR acknowledges their prior and ongoing obligations to sell, assign, and transfer the rights under this Assignment to ASSIGNEE and is unaware of any reason why they may not have the full and unencumbered right to sell, assign, and transfer the rights hereby sold, assigned, and transferred, and has not executed, and will not execute, any document or instrument in conflict herewith.
