WHEREAS, Anthony Fader, Sarah Gould, and Praveen Seshadri (hereinafter referred to as ASSIGNORS), having a post office address of 2805 170th Ave SE, Bellevue, WA 98008, are the joint inventors of an invention entitled "CREATING APPS FROM NATURAL LANGUAGE DESCRIPTIONS," at least in part disclosed in a provisional patent application filed on January 30, 2018 in the United States Patent and Trademark Office, and assigned Serial No. 62/623,681, and are the joint owners of record of said provisional application;

WHEREAS, Solvebot, Inc. (hereinafter referred to as ASSIGNEE), a corporation of the State of Delaware, having a business address of 2805 170th Avenue SE, Bellevue, WA 98008, is desirous of acquiring the entire right, title and interest in and to said invention, said provisional application, and any and all letters patent that may be granted therefor in the United States and foreign countries;

NOW, THEREFORE, in exchange for good and valuable consideration, the receipt of which is hereby acknowledged, ASSIGNORS hereby sell, assign and transfer to ASSIGNEE, the entire right, title and interest in and to said invention, said provisional application, and any and all letters patent in the United States of America and its territorial possessions and in any and all foreign countries which may be granted for said invention or which may result from said provisional application or any patent application converted from or claiming the benefit of said provisional application, including any and all divisions, reissues and continuations thereof and the right to file foreign applications for said invention directly in the name of ASSIGNEE and to claim priority rights deriving from said provisional application to which said foreign applications or any other patent applications are entitled by virtue of international convention, treaty or otherwise. Said invention, said provisional application, and any and all letters patent granted for said invention or resulting from said provisional application or any patent application converted from or claiming the benefit of said provisional application, to be held and enjoyed by ASSIGNEE for its use and benefit and by its successors and assigns for their use and benefit as fully and entirely as the same would have been held and enjoyed by ASSIGNORS had this assignment, transfer and sale not been made.

ASSIGNORS hereby authorizes and requests the Commissioner of Patents and Trademarks to issue to ASSIGNEE all letters patent granted for said invention or resulting from said provisional application or any patent application converted from or claiming the benefit of said provisional application. ASSIGNORS agree to execute all instruments and documents required for the making and prosecution of applications for United States and foreign letters patent on said invention or resulting from said provisional application or any patent application converted from or claiming the benefit of said provisional application, for litigation regarding said letters patent, or for the purpose of protecting title to said invention, said provisional application or any patent application converted from or claiming the benefit of said provisional application, or any letters patent therefor.
