(hereinafter referred to as "Inventors"), and Treos Bio Zrt., a private limited company organized under and pursuant to the laws of the Country of Hungary having its principal place of business at Viola Utca 2, Veszprém 8200 (HU) (hereinafter referred to as "Assignee").

WHEREAS, Inventors are employees of Assignee and during the course of their employment by Assignee and as part of the performance of their job responsibilities, Inventors invented certain new and useful inventions disclosed in the following patent application(s): 17/250,725, filed on February 24, 2021, which is the U.S. National Phase entry of PCT Application No. PCT/EP2019/073476, filed on September 3, 2019 in the European Receiving Office of the Patent Cooperation Treaty, and entitled PEPTIDE VACCINES (hereinafter, the "Application(s)"); and

WHEREAS, Inventors and Assignee desire to confirm Assignee's ownership of the entire right, title and interest in and to (a) said inventions and all embodiments thereof; and (b)(i) the Application(s), (ii) all United States, foreign, or international patent applications, including those filed under the Paris Convention for the Protection of Industrial Property, The Patent Cooperation Treaty or otherwise, that claim priority to or from the Application(s), including any divisional, substitution, continuation, continuation-in-part, non-provisional, or national phase application, (iii) each and every patent, utility model, or equivalent forms of protection thereto, including certification of invention, or inventor's certificate, granted or issued from any of the foregoing under subclause (ii), and (iv) each and every reissue, reexamination, renewal or extension of any kind of any patent of subclause (iii) (collectively, the "Patents").

NOW, THEREFORE, for good, valuable and sufficient consideration, including Inventor's continued at-will employment, the receipt in full of which is hereby acknowledged and agreed to by said Inventors, said Inventors confirm that they have sold, assigned, transferred, and conveyed unto Assignee, its successors, legal representatives and assigns, or, to the extent that such transfer has not been affected, do hereby sell, assign, transfer and convey unto Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to (a) said inventions, and (b) the Patents, including the right to claim priority to and from said Patents, and (c) all claims for past, present and future infringement of the Patents, including all rights to sue for and to receive and recover for Assignee's own use all past, present, and future lost profits, royalties, and damages of whatever nature recoverable from an infringement of the Patents.

Said Inventors hereby covenant and agree to cooperate with said Assignee to enable said Assignee to enjoy to the fullest extent the right, title and interest herein conveyed in the United States, foreign countries, or under any international convention, agreement, protocol, or treaty. Such cooperation by said Inventors shall include prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for filing, prosecuting or maintaining any of the Patents; (c) for filing, prosecuting or maintaining applications for reissuance of any said Patents; (d) for interference or other priority proceedings involving said inventions or Patents; and (e) for legal proceedings involving said inventions or Patents, including without limitation reissues and reexaminations, IPRs, opposition and other post-grant proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions and court actions; provided, however, that reasonable expenses incurred by said Inventors in providing such cooperation shall be paid for by said Assignee.

The terms and covenants of this assignment shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Inventors, their respective heirs, legal representatives and assigns.

Said Inventors hereby warrant, represent and covenant that said Inventors have not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

Said Inventors hereby request that any Patents issuing or granting in the United States, any foreign country, or under any international convention, agreement, protocol, or treaty, be issued or granted in the name of the Assignee, or its successors and assigns, for the sole use of said Assignee, its successors, legal representatives and assigns.

This instrument will be interpreted and construed in accordance with the laws of the Country of Hungary without regard to conflict of law principles. If any provision of this instrument is found to be illegal or unenforceable, the other provisions shall remain effective and enforceable to the greatest extent permitted by law. This instrument may be executed in counterparts, each of which is deemed an original, but all of which together constitute one and the same agreement.
