ASSIGNMENT

This Assignment (the “Assignment”), effective as of October 30, 2022 (the “Effective Date”), is entered into by and between Zillow, LLC, a Washington Limited Liability Company (“Assignor”), and Push Sub I, Inc., a Washington Corporation (“Assignee” and together with Assignor, the “Parties”).

RECITALS

WHEREAS, Assignee is the sole member of Assignor;

WHEREAS, Assignor owns all right, title and interest in and to the intellectual property identified on Schedule A attached hereto (together the “Zillow Intellectual Property”);

WHEREAS, Assignor desires to make a distribution to Assignee as its sole member, consisting of the Zillow Intellectual Property (the “Distribution”); and

WHEREAS, in furtherance of the Distribution, Assignor now desires to assign all of its right, title and interest in and to the Zillow Intellectual Property to Assignee, and Assignee desires to acquire the Zillow Intellectual Property.

NOW THEREFORE, in exchange for the mutual promises made herein and for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor and Assignee hereby agree as follows:

1. ASSIGNMENT

With effect as of the time of the Effective Date, Assignor does hereby irrevocably sell, assign, transfer, convey, and deliver all of its right, title, and interest in and to the Zillow Intellectual Property to Assignee for Assignee’s own use and enjoyment and for the use and enjoyment of Assignee’s successors, assigns, and other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignee if this Assignment had not been made. This Assignment includes all right, title, and interest in and to the Zillow Intellectual Property, including but not limited to:

- (a) the right to assign or license the Zillow Intellectual Property;
- (b) any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any of the Zillow Intellectual Property;
- (c) all causes of action for any previously occurring infringement, misappropriation, or violation of the Zillow Intellectual Property, the right to sue for past and future damages, and the right to receive and retain the proceeds relating to the infringement, misappropriation, or violation of the Zillow Intellectual Property; and
- (d) all other rights and interests in and to the Zillow Intellectual Property.

2. REPRESENTATIONS AND WARRANTIES

Each of Assignor and Assignee represents and warrants that it has the power and authority to execute, deliver, and perform its obligations under this Assignment and that neither the execution nor delivery of this Assignment nor the performance of its obligations hereunder will constitute a breach of the terms or provisions of any contract or violate the rights of any third party

3. GENERAL PROVISIONS

- 3.1 Further Assurances. The parties agree to execute such further or other documents and assurances and do such other acts as may, from time to time, be required or deemed useful to give effect to the provisions of this Assignment. Such further assurances include, without limitation, the execution and delivery of any and all affidavits, declarations, oaths, samples, exhibits, specimens, assignments, powers of attorney or other documentation and other acts as may be necessary or requested by Assignee to vest full title in and to the Zillow Intellectual Property in Assignee or which may be necessary to obtain, renew, issue or enforce the Zillow Intellectual Property.
- 3.2 Entire Agreement and Amendment. This Assignment sets forth the entire agreement and understanding between the parties with respect to the Zillow Intellectual Property. No amendment of any provision of this Assignment shall be valid unless the same shall be in writing and signed by Assignor and Assignee. No waiver by any party of any provision of this Assignment or any default or breach of covenant hereunder, whether intentional or not, shall be valid unless the same shall be in writing and signed by the party against whom the waiver is to be effective nor shall such waiver be deemed to extend to any prior or subsequent default or breach of covenant hereunder or affect in any way any rights arising by virtue of any prior or subsequent such occurrence.
- 3.3 Governing Law. This Agreement shall be governed by and constructed in accordance with the laws of Washington, without regard to its conflict of law rules, and it shall be binding upon the parties worldwide.
- 3.4 Severability. Any provision of this Assignment which is invalid or unenforceable shall not affect any other provision and shall be deemed to be severable.
- 3.5 Waiver of Default. A waiver by any party of a breach or violation of any provision of this Assignment will not constitute or be construed as a waiver by that party of any other breach or violation of this Assignment.
- 3.6 Counterparts. This Assignment may be executed and delivered in any number of counterparts, each of which when executed and delivered is an original but all of which when taken together constitute one and the same instrument.
