WHEREAS, Evan Chase Rose of the unincorporated U.S. territory of Puerto Rico, hereinafter referred to as "*Assignor*," is an inventor described and set forth in the above-identified invention.

WHEREAS, Genesis Coin Inc., a Delaware corporation, hereinafter referred to as "*Assignee*," is desirous of acquiring an interest in the invention listed above and in any U.S. Letters Patent and Registrations which may be granted on any patent application covering such invention.

For good and valuable consideration, receipt of which is hereby acknowledged by Assignor, Assignor has assigned, and hereby does assign to Assignee all right, title and interest in and to the invention and any application resulting from the same and to all foreign counterparts (including patent, utility model and industrial designs), and in and to any Letters Patent and Registrations which may hereafter be granted on any such patent application claiming priority from the same in the United States and all countries throughout the world, and to claim the priority from any such application as provided by the Paris Convention.
