**EXHIBIT B-3
PATENT ASSIGNMENT AGREEMENT**

I, Evan Chase Rose, as the inventor, hereby declare that this assignment is directed to:

Title of Invention: GRAPHICAL USER INTERFACE AND CONSOLE MANAGEMENT
 SYSTEM FOR DISTRIBUTED TERMINAL NETWORK

U.S. Patent No. 10,911,463

Issue Date: February 02, 2021

WHEREAS, Evan Chase Rose of the unincorporated U.S. territory of Puerto Rico, hereinafter referred to as “*Assignor*,” is an inventor described and set forth in the above-identified invention.

WHEREAS, Genesis Coin Inc., a Delaware corporation, hereinafter referred to as “*Assignee*,” is desirous of acquiring an interest in the invention listed above and in any U.S. Letters Patent and Registrations which may be granted on any patent application covering such invention.

For good and valuable consideration, receipt of which is hereby acknowledged by Assignor, Assignor has assigned, and hereby does assign to Assignee all right, title and interest in and to the invention and any application resulting from the same and to all foreign counterparts (including patent, utility model and industrial designs), and in and to any Letters Patent and Registrations which may hereafter be granted on any such patent application claiming priority from the same in the United States and all countries throughout the world, and to claim the priority from any such application as provided by the Paris Convention. The right, title and interest is to be held and enjoyed by Assignee and Assignee’s successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this Assignment not been made, for the full term of any Letters Patent and Registrations which may be granted thereon, or of any divisional, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation or extension thereof.

Assignor further agrees that Assignor will, without charge to Assignee, but at Assignee’s expense, (a) cooperate with Assignee in the prosecution of U.S. Patent applications and foreign counterparts on the invention and any improvements, (b) execute, verify, acknowledge and deliver all such further papers, including applications and instruments of transfer, and (c) perform such other acts as Assignee lawfully may request to obtain or maintain Letters Patent and Registrations for the invention and improvements in any and all countries, and to vest title thereto in Assignee, or Assignee’s successors and assigns.

IN TESTIMONY WHEREOF, Assignor has signed his name on the date indicated.

Dated: January 23, 2023
