ASSIGNMENT

WHEREAS, Glenn C. Micalizio of Norwich, Vermont, hereinafter called the "Assignor," has made the invention described in the United States patent applications entitled METHODS FOR ASSEMBLY OF TETRACYCLIC COMPOUNDS BY STEREOSELECTIVE C9-C10 BOND FORMATION having a U.S. Patent Application Number of 17/191,281, which was filed on March 3, 2021, and U.S. Patent Application No. 18/050,730, which was filed on October 28, 2022 (hereinafter referred to as "the Application").

WHEREAS, **Trustees of Dartmouth College**, a non-profit educational corporation having a place of business at 11 Rope Ferry Road, Hanover, New Hampshire 03755-1404, hereinafter called the "Assignee," desires to acquire the entire right, title and interest in and to the invention and to the Application, and all patents, foreign and domestic, which may be obtained for said invention, as set forth below.

NOW, THEREFORE, in exchange for valuable and legally sufficient consideration, the Assignor has sold, assigned and transferred, and by these presents does sell, assign and transfer to the Assignee, the entire right, title and interest for the United States and elsewhere in and to the invention and the Application; together with the entire right, title and interest in and to all subsequent applications thereof, including, but not limited to, all non-provisional, international, continuation, divisional, or substitute applications thereof, including, for any such subsequent application, the full right to claim the benefit of priority of the Application under any applicable domestic law, international agreement or convention; together with any patents, utility models, inventors' certificates, and designs that may issue for said invention and applications in the United States and all countries foreign to the United States and all extensions, renewals, and reissues thereof, to have and to hold for sole and exclusive use and benefit of the Assignee, its successors and assigns, to the full end of the term or terms for all such patents.

The Assignor hereby covenants and agrees, for both the Assignor and the Assignor's legal representative, that Assignor has the full right to convey the interest assigned by this Assignment; and that the Assignor will assist the Assignee in the prosecution of the patent applications identified above, in the making and prosecution of any other applications that the Assignee may elect to make covering the invention identified above, in vesting in the Assignee like exclusive title in and to all such other patent applications and patents, in the prosecution of any patent office proceeding which may arise involving said invention, or any such patent application or patent, and in assisting Assignee in enforcement of any rights arising out of this Assignment; and that the Assignor will execute and deliver to the Assignee any and all additional papers which may be requested by the Assignees to carry out the terms of this Agreement.

The Commissioner for Patents of the United States and the empowered officials of all other governments are hereby authorized and requested to issue patents to the Assignee in accordance with the terms of this Assignment.

IN TESTIMONY WHEREOF, the Assignor has executed this agreement.

Glenn C. Micalizio
