## ASSIGNMENT

This patent assignment is made effective as of the date of the last signature hereto by and between **Scott Kahler**, an individual, and **NantHealth, Inc.**, a Delaware corporation.

WHEREAS, the undersigned, **Scott Kahler**, an individual, (referred to hereinafter as "ASSIGNOR") has invented certain inventions for which patent applications have been filed, or for which patents have issued, identified and as set forth in Exhibit A, attached hereto, each of which is referred to hereinafter as the INVENTIONS;

WHEREAS, ASSIGNOR agreed to (i) assign to NantHealth, Inc., a company having its principal place of business at **9920 Jefferson Boulevard, Culver City, California 90232**, (referred to hereinafter as "ASSIGNEE"), directly or via one or more of its predecessor entities, all right, title and interest in, to and under said INVENTIONS, and in, to and under Letters Patent or similar legal protection to be, or having been, obtained therefor in the United States of America, its territorial possessions and in any and all countries foreign thereto and (ii) execute and deliver assignments as requested by ASSIGNEE with respect to the INVENTIONS;

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, ASSIGNOR hereby sells, assigns, transfers and sets over unto the ASSIGNEE, its successors and assigns the entire title, right and interest in and to the INVENTIONS, and to all Letters Patent or similar legal protection arising therefrom, not only in the United States and its territorial possessions, but in all countries foreign thereto to be obtained for said INVENTIONS by said applications or any continuation, continuation-in-part, divisional, renewal, substitute, reissue or reexamination thereof or any legal equivalent thereof in a foreign country for the full term or terms for which the same may be granted, including all priority rights under any International Convention.

ASSIGNOR hereby covenants that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this assignment;

ASSIGNOR further covenants that ASSIGNEE will, upon its request, be provided promptly with all pertinent facts and documents relating to said INVENTIONS, including the patent application listed above, and any Letters Patent and legal equivalents in foreign countries issuing therefrom as may be known and accessible to the ASSIGNOR, and will testify as to the same in any interference or litigation related thereto and will promptly execute and deliver to ASSIGNEE or its legal representatives any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue and enforce said INVENTIONS and said Letters Patent and said equivalents thereof in any foreign country which may be necessary or desirable to carry out the purposes thereof.

ASSIGNOR and ASSIGNEE each covenant to perform all acts and execute and deliver all documents as may be necessary or appropriate to carry out the intent and purposes of this assignment.

ASSIGNOR acknowledges that ASSIGNEE may appoint any attorney or practitioner of ASSIGNEE'S choice to prosecute any application or other legal proceeding involving said

inventions and ASSIGNOR further acknowledges that any attorney or practitioner so appointed by ASSIGNEE does not represent the ASSIGNOR and that such appointment by ASSIGNEE does not create any attorney-client relationship between the ASSIGNOR and any attorney or practitioner appointed by ASSIGNEE, in these or in any PCT or other family applications.

ASSIGNOR HEREBY GRANTS to the law firm of **Stetina Brunda Garred & Brucker** the power and authority to insert in this Assignment any further identification which may be necessary or desirable to comply with the rules of the U.S. Patent and Trademark Office and any rules of any country or countries foreign to the United States for recordation. ASSIGNOR hereby further authorizes and requests ASSIGNEE's attorney to insert or correct in Exhibit A hereto the relevant application number(s) and filing date(s) of said application(s) when known.

This Agreement may be executed in any number of counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.
