PATENT ASSIGNMENT

AN ASSIGNMENT to be effective the 20th day of February 2023 by and between:

Assignors:

David J. Ruttley, a person of full age of majority and a United States Citizen, domiciled and residing at 6408 Audubon Oaks, Alexandria, LA 71301

Darrell Wall, a person of full age of majority and a United States Citizen, domiciled and residing at 9135 Ranch Road, Abbeville, LA 70510; and

Assignee:

Dynasty Energy Services, LLC, a Louisiana limited liability company, domiciled at 210 Magnate Drive, Suite 100, Lafayette, La 70508.

WITNESSETH

WHEREAS, Assignors have jointly invented a certain invention entitled "*Cutting Insert for a Section Milling Tool*;" and

WHEREAS, Assignors made such invention for and on behalf of Assignee, Dynasty Energy Services, LLC. and at Assignee's expense; and

WHEREAS, Assignee and Assignors are desirous of confirming and documenting that the entire worldwide right, title and interest in and to said invention and in and to any Letters Patent to be obtained therefor shall be owned and controlled by Assignee, Dynasty Energy Services, LLC;

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN: Be it known that in consideration of the payment by Assignee to Assignors of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged, Assignors hereby sell, assign and transfer to Assignee, Dynasty Energy Services, LLC, the full and exclusive worldwide right, title and interest in and to said invention entitled "*Cutting Insert for a Section Milling Tool*," including all rights to claim priority thereto, and in and to any provisional or non-provisional patent application based thereon, and any patent or letters patent that may be granted therefor in the United States and in any foreign country, and in and to any continuation, division, renewal, substitute or reissue thereof, for the full term or terms for which the same may be granted, and including all claims for patent infringement, past and future, which Assignors have or may have as a result of said invention and any patent or letters patent granted thereon, including the rights to file suit and claim damages for any such past or future infringement against any infringer

in the name of Assignee.

Assignors authorize Assignee to make application for such patent protection in its own name and to maintain such protection in the United States and in any and all countries foreign to the United States as Assignee sees fit, and to invoke and claim for any application for patent or other form of protection for said inventions, without further authorization from Assignors, any and all benefits, including the right of priority provided by any and all treaties, conventions or agreements.

Assignors request that any and all patents for said inventions granted by the United States or any country foreign to the United States be issued to Assignee or to such nominees or assigns as Assignee may designate.

Assignors hereby covenant that they are the sole inventors of said invention and that they have made no assignment, sale, agreement, or other encumbrance of said invention that would conflict with this assignment and sale;

Assignors further covenant that they, upon the request of Assignee, will promptly provide Assignee with all pertinent facts and documents relating to said application, said invention and said Letters Patent as may be known and accessible to them, and that they will testify as to the same in any interference or litigation related thereto, and that they will promptly execute and deliver to Assignee or its legal representative any and all papers, instruments or affidavits required to apply for, obtain, maintain and enforce said application, said invention and said Letters Patent that may be necessary or desirable to carry out the purposes hereof.

Assignors further covenant that this Assignment sets forth the entire agreement between the parties in connection with the subject matter hereof and Assignors shall have no further claim to or benefit of the invention, any patent application therefor, or any patent granted thereon, worldwide, except as may be set forth in writing in a separate document executed by the parties hereto.

Assignors hereby consent and agree that a copy of this Assignment shall be deemed a full legal and formal equivalent of any document which may be required in any country in proof of the right of Assignee to apply for patent or other form of protection for said inventions and to claim the aforesaid benefit of the right of priority.

COUNTERPARTS

Assignors and Assignee acknowledge and agree that this Assignment may be executed in any

number of counterparts, all of which when collated shall constitute one and the same instrument and shall for all purposes be deemed to have been made, executed and delivered as of the date and year first above written, irrespective of the time or times when the same or any of the counterparts thereof may be made, executed and delivered.

Thus, done, signed and dated by Assignors and Assignee.
