AGREEMENT

NOW THEREFORE, in consideration of the foregoing and the respective representations, warranties, covenants, agreements and conditions set forth herein and in the Purchase Agreement, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Definitions. As used in this Assignment, the following terms will have the meanings specified below:

"**Seller Intellectual Property**" means all Intellectual Property in which Seller has (or purports to have) an ownership interest of any nature (whether exclusively, jointly with another Person or otherwise) and which are used or held for use in the Business, including, but not limited

to, the Copyrights and Software listed on Schedule A, the Domain Names listed on Schedule B, the Patents listed on Schedule C, and the Trademarks listed on Schedule D.

2. Assignment. Subject to and on the terms of the Purchase Agreement, the Seller hereby sells, assigns, transfers, conveys and delivers to the Buyer all right, title, and interest in and to all Seller Intellectual Property, including the items listed on Schedules A, B, C, and D (collectively, the "Assigned Intellectual Property") including, without limitation, the right to claim priority rights from any of the foregoing.

3. Waiver of Moral Rights. The Seller hereby irrevocably waives all rights under all laws now existing or hereafter permitted, with respect to any and all purposes for which the Assigned Intellectual Property may be used, including without limitation: (a) all rights under the United States Copyright Act, or any other country's copyright law, including but not limited to, any rights provided in 17 U.S.C. §§ 106 and 106A; and (b) any rights of attribution and integrity or any other "moral rights of authors" existing under applicable law.

4. Further Assurances. The Seller will, at its own cost and expense, promptly execute and deliver to the Buyer any documents necessary to complete the timely transfer of the Assigned Intellectual Property to the Buyer, including, without limitation, the Patent Assignment set forth in Exhibit A to this Assignment and the Trademark Assignment set forth in Exhibit B to this Assignment.

5. Domain Names. At its own expense, the Seller will promptly and properly complete and submit, to its registrar for the Domain Names, any and all instructions necessary to transfer ownership as registrant of the Domain Names to the Buyer. 6. Governing Law. This Assignment will be governed by and construed and enforced in accordance with the internal laws of the State of Delaware without reference to any choice of law rules that would result in the application of the laws of another jurisdiction.

7. Counterparts. This Assignment may be executed in any number of counterparts, and by the different parties hereto in separate counterparts, each of which when executed shall be deemed an original, but all of which shall be considered one and the same agreement, and shall become effective when each party has received counterparts signed by each of the other parties, it being understood and agreed that delivery of a signed counterpart signature page to this Agreement by facsimile transmission, by electronic mail in portable document format (".pdf") form, or by any other electronic means intended to preserve the original graphic and pictorial appearance of a document shall constitute valid and sufficient delivery thereof.
