The Assignors are inventors of one or more certain inventions (the "Invention(s)") described in the applications for Letters Patent titled:

Pulmera, Inc., a Delaware corporation, having its principal place of business at 500 Jefferson Ave, #529, Redwood City, California 94063, United States of America (the "Assignee"), desires to acquire the entire right, title and interest in and to the Invention(s) and the Patents and Applications, and in and to any patents (collectively, "Patents") that may be granted for the Invention(s) in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which Assignors acknowledge, Assignors hereby sell, assign, and transfer to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Inventions, the Patents and Applications, and any future Patents; any divisions, continuations, and continuations-in-part of the Applications and any other application claiming priority rights from the Applications; any applications to which the Applications or Patents claim priority; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee, and the right to claim priority rights deriving from the Applications (collectively, the "Rights"). Assignors warrant that Assignors own the Rights, and that the Rights are unencumbered. Assignors also agree to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deem necessary or desirable to: perfect Assignee's enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignors request the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee. This Assignment may be executed in counterparts.
