## ASSIGNMENT

WHEREAS, I, John A. Eaton (ASSIGNOR), am an inventor of certain inventions and improvements described in

- (1) an international patent application filed under the Patent Cooperation Treaty, identified by attorney docket no. 056943.01385, and having the title **Container Filling System and Valve for Same**, which application was filed on March 21, 2014 and assigned Application No. PCT/US14/31469, which international patent application names John A. Eaton, David William Martin, David Jay Warburton, Thomas John Evans, Samuel Frank Feller, Nathan John Coleman, Jason Karl Sorge and Randy A. Straub as inventors, and
- (2) U.S. provisional application number 61/804,452 (titled "Universal Filling System and Valve for Same" and filed on March 22, 2013), priority to which is claimed by application (1),

with applications (1) and (2) henceforth collectively referred to as "said applications" and with "inventions and improvements" referring to inventions and improvements described in any of said applications; and

WHEREAS,

PEPSICO, INC.  
700 Anderson Hill Road  
Purchase, NY 10577

(ASSIGNEE) desires to acquire the entire right, title and interest in and to said applications, inventions and improvements and any patents that may be granted on or as a result thereof in the United States of America (U.S.) and in any and all foreign countries;

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged,

I hereby assign, to the above named ASSIGNEE, its successors, assigns and legal representatives (NOMINEES) my entire right, title and interest in and to said applications, inventions and improvements, including the right to claim priority to said applications, throughout the world, and to any and all patents, petty patents and utility model patents which may be granted therefor, and all continuations, continuations-in-part, divisions, reissues, extensions, renewals, and any non-provisional based on a provisional thereof (LETTERS PATENT).

And I covenant that I have full right to convey the entire interest herein assigned, and that I have not executed and will not execute any agreement or do anything in conflict herewith;

And I further covenant and agree that I will without undue delay execute without further consideration all such papers as may be necessary to perfect the title to said applications, inventions and improvements, and LETTERS PATENT in the ASSIGNEE or its NOMINEES,

and I agree to communicate to said ASSIGNEE or its NOMINEES all known facts respecting said applications, inventions, improvements, and LETTERS PATENT, to testify in any legal proceedings, to sign all lawful papers, and generally to do all things necessary to aid ASSIGNEE or its NOMINEES to obtain and enforce for their own benefit patent protection for said applications, inventions and improvements in any and all countries, all at the expense, however, of the ASSIGNEE or its NOMINEES.

And I authorize the ASSIGNEE or its NOMINEES to file in my name or their own, as appropriate, application for LETTERS PATENT in any and all countries of the world, and I authorize and request the Commissioner of Patents and Trademarks of the United States, and any proper official of any country, to issue to said ASSIGNEE or its NOMINEES any and all LETTERS PATENT for said applications, inventions and improvements, for their sole use, to the full end of the term for which such LETTERS PATENT may be granted;

And we hereby grant the attorneys at the law firm of Banner & Witcoff the power to insert into this document the filing date and application number of the above-referenced international patent application (1) once said filing date and application number are known.
