Confirmatory Patent Assignment

WHEREAS, I (Ethan Fieldman) am the inventor on a number of patents and patent applications filed by or on behalf of Study Edge, Inc. (Assignee), referred to as "the Study Social Patents" listed here:

Patent No.	Application No.	Filing Date	Issue Date	Docket Number
11,533,354	17/727,499	April 22, 2022	December 20, 2022	STEDP046C1
N/A	17/842,424	June 16, 2022	N/A	STEDP054C1

WHEREAS, I previously executed separate assignments for the Study Social Patents identified above and I inadvertently assigned these to "Study Social, Inc." after a merger occurred and its name had been changed to "Study Edge, Inc. I had fully intended that the Study Social Patents be assigned to "Study Edge, Inc." seeing as the business entity continued to exist simply with a different name.

WHEREAS, I believe that an entity named "Study Social, Inc." did not exist when I executed the assignments for the Study Social Patents and that therefore the previous assignments had no effect, I now wish to clearly document ownership of the Study Social Patents.

For good and valuable consideration, the receipt of which is hereby acknowledged, to the extent that Study Social, Inc. may have a remaining interest in any of the Study Social Patents, and to the extent that I, as an inventor, may have a remaining interest in any of the Study Social Patents, I (as CEO of Study Social, Inc. and as the inventor of the Study Social Patents), do hereby sell, assign, transfer and convey unto Assignee, the entire right, title and interest in (a) all of the identified Study Social Patents; (b) any and all improvements and inventions disclosed in the Study Social Patents (except for virtual reality-related inventions); (c) all reissues, reexaminations, continuations, continuations-in-parts, divisionals and extensions (collectively "Related Cases") of any of the Study Social Patents; (d) the right to claim priority to any of the Study Social Patents or any of the Related Cases; and (e) all foreign counterparts to any or all of the Study Social Patents (now existing or later filed), including without limitation patents, utility models, design patents, certificates of invention and equivalent rights worldwide.

I hereby authorize and request the Commissioner of Patents to issue any and all United States Patents resulting from the Study Social Patents or any division, continuation, substitute, renewal, re-examination or reissue thereof to the Assignee.

The terms and conditions of this Agreement shall inure to the benefit of Assignee, its successors, assigns and other legal representatives, and shall be binding upon Assignors, their successors, assigns and other legal representatives.
