PATENT SECURITY AGREEMENT

THIS PATENT SECURITY AGREEMENT, dated as of March 14, 2023 (this "Agreement"), is made by CAPSA SOLUTIONS LLC, a Delaware limited liability company (the "Grantor"), in favor of MIDCAP FINANCIAL TRUST, as administrative agent (in such capacity, together with its successors and permitted assigns, the "Agent") for the Secured Creditors (as defined in the Security Agreement referred to below).

WITNESSETH:

WHEREAS, pursuant to that certain Credit Agreement, dated as of September 8, 2017 (as the same may be amended, amended and restated, supplemented and/or modified from time to time, the "Credit Agreement"), by and among the Borrower, the Guarantors from time to time party thereto, the Agent, the L/C Issuer and the Lenders from time to time party thereto, the Lenders have severally agreed to make extensions of credit to the Borrower upon the terms and subject to the conditions set forth therein;

WHEREAS, the Grantor has agreed, pursuant to that certain Security Agreement of even date herewith in favor of Agent (and such agreement may be amended, amended and restated, supplemented or otherwise modified from time to time, the "Security Agreement"), to guarantee the Obligations (as defined in the Credit Agreement) of the Borrower; and

WHEREAS, the Grantor is party to the Security Agreement pursuant to which the Grantor is required to execute and deliver this Agreement;

NOW, THEREFORE, in consideration of the premises and to induce the Lenders and Agent to enter into the Credit Agreement and to induce the Lenders to make their respective extensions of credit to the Borrower thereunder, the Grantor hereby agrees with Agent as follows:

Section 1. Defined Terms. Capitalized terms used herein without definition are used as defined in the Security Agreement and/or the Credit Agreement.

Section 2. Grant of Security Interest in Patent Collateral. The Grantor, as collateral security for the prompt and complete payment and performance when due (whether at stated maturity, by acceleration or otherwise) of the Obligations of the Grantor, hereby mortgages, pledges and hypothecates to Agent for the benefit of the Secured Creditors, and grants to Agent for the benefit of the Secured Creditors a Lien on and security interest in, all of its right, title and interest in, to and under the following Collateral of the Grantor (the "Patent Collateral"):

1. all of its Patents and all IP Licenses providing for the grant by or to the Grantor of any right under any Patent, including, without limitation, those referred to on Schedule 1 hereto;

2. all reissues, reexaminations, continuations, continuations-in-part, divisionals, renewals and extensions of the foregoing; and

3. all income, royalties, proceeds and Liabilities at any time due or payable or asserted under and with respect to any of the foregoing, including, without limitation, all rights to sue and recover at law or in equity for any past, present and future infringement, misappropriation, dilution, violation or other impairment thereof.

Notwithstanding the foregoing, no Lien or security interest is hereby granted on any Excluded Property; provided that if and when any property shall cease to be Excluded Property, a Lien on and security in such property shall be deemed granted therein.

Section 3. Security Agreement. The security interest granted pursuant to this Agreement is granted in conjunction with the security interest granted to Agent pursuant to the Security Agreement and the Grantor hereby acknowledges and agrees that the rights and remedies of Agent with respect to the security interest in the Patent Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. In the event of any conflict between this Agreement and the Security Agreement, the Security Agreement shall control.

Section 4. Grantor Remains Liable. The Grantor hereby agrees that, anything herein to the contrary notwithstanding, but subject to the terms of the Security Agreement, the Grantor shall assume full and complete responsibility for the prosecution, defense, enforcement or any other necessary or desirable actions in connection with their Patents and IP Licenses subject to a security interest hereunder.

Section 5. Termination. This Agreement shall terminate and the Lien on the security interest in the Patent Collateral shall be released upon the payment in full in cash and performance of the Obligations (other than any outstanding contingent indemnification obligations as to which no claim has been asserted) and cash collateralization of Letters of Credit in accordance with the terms set forth in the Security Agreement and the Credit Agreement. Upon the termination of this Agreement, the Agent shall execute all documents, make all filings, and take all other actions reasonably requested by the Grantors to evidence and record the release of the Lien on and security interests in the Patent Collateral granted herein.

Section 6. Counterparts. This Agreement may be executed in any number of counterparts and by different parties in separate counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. Signature pages may be detached from multiple separate counterparts and attached to a single counterpart.

Section 7. Governing Law. This Agreement and the rights and obligations of the parties hereto shall be governed by, and construed and interpreted in accordance with, the law of the State of New York.
