## ASSIGNMENT OF PATENTS

I, Xiaofeng Li, located in Shenzhen, China, for good and valuable consideration, the receipt of which is hereby acknowledged, hereby sell, assign, transfer, and convey to Liown Holdings, Inc., a Delaware corporation located at 621 Lunar Avenue, Brea, California 92821, and its successors and assigns (collectively hereinafter “the Assignee”), the entire right, title and interest throughout the world in any and all inventions and improvements for patent and patent applications described on Schedule A-1 (“the Patents”).

This agreement includes sale, assignment, transfer, and conveyance of the entire right, title and interest in the Patents, all legal equivalents and improvements thereof throughout the world, including, but not limited to, all continuations, divisions, continuations in part, requests for continued examination, reissues, reexaminations, renewals, and extensions thereof; any other filings claiming priority to or serving as a basis for priority thereof; all patents issuing from any of the foregoing; the right to file foreign applications directly in the name of Assignee with respect to the inventions, discoveries or designs described in any of the Patents; the right to claim priority to any of the Patents or any of the inventions, discoveries and designs described in the Patents; and all causes of action and other enforcement rights under, or on account of, any of the foregoing for past, current or future infringement.

I hereby authorize Assignee to apply in all countries in my name or in the name of Assignee for patents, utility models, design registrations and like rights of exclusion and for inventors' certificates for the Patents.

I hereby represent, warrant and covenant that I have the full power and authority, and have obtained all third party consents, approvals and/or other authorizations required to assign the Patents to Assignee.

I hereby represent and covenant that no assignment, sale, agreement or encumbrance has been or will be made or entered into that would conflict with the assignment of the Patents to Assignee.

I hereby authorize the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Patent in the name of Assignee.

Docket No.

I represent that, at the reasonable request of Assignee and without demanding any further consideration therefor, do all things necessary, proper, or advisable, including without limitation, the execution, acknowledgment, and recordation of specific assignments, oaths, declarations, and other documents on a country-by-country basis, to assist Assignee in obtaining, perfecting, sustaining, and/or enforcing the Patents.

No amendment or modification of this assignment shall be valid or binding upon Assignor or Assignee unless made in writing and signed on behalf of each of Assignor and Assignee by their respective duly authorized representative.

This agreement shall be governed by and construed in accordance with the law of the state of Delaware and Assignor and Assignee agree to submit to the exclusive jurisdiction of the courts of the state of Delaware.

I am competent to execute the above assignment and hereby have duly executed the assignment below with my name.

Executed this 15th day of May, 2020.
