PATENT SECURITY AGREEMENT

This **PATENT SECURITY AGREEMENT**, dated as of April 10, 2023 (as amended, restated, supplemented or otherwise modified from time to time, this “**Patent Security Agreement**”), is made by CopperEgg Corporation (“**Grantor**”) in favor of AUDAX PRIVATE DEBT LLC, as Administrative Agent and Collateral Agent for the Secured Parties (in such capacities and together with its successors and permitted assigns, the “**Administrative Agent**”).

WHEREAS, Grantor is party to that certain Security Agreement, dated as of April 10, 2023 (as amended, restated, amended and restated, supplemented and/or otherwise modified from time to time, the “**Security Agreement**”), among Grantor, the other grantors party thereto, and the Administrative Agent pursuant to which Grantor granted a security interest to the Administrative Agent in the Patent Collateral (as defined below) and is required to execute and deliver this Patent Security Agreement.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Grantor hereby agrees with the Administrative Agent as follows:

SECTION 1. DEFINED TERMS

Unless otherwise defined herein, terms defined in the Security Agreement and used herein have the meaning given to them in the Security Agreement.

SECTION 2. GRANT OF SECURITY INTEREST

Grantor, as security for the payment and performance in full of the Secured Obligations of Grantor (including, if Grantor is a Guarantor, the Secured Obligations of Grantor arising under the Guaranty), hereby grants and pledges to the Administrative Agent, its successors and permitted assigns, for the benefit of the Secured Parties, a continuing security interest in all right, title and interest in and to the Patents (including those listed on Schedule A hereto) (collectively, the “**Patent Collateral**”); *provided* that the Patent Collateral shall not include any Excluded Assets.

SECTION 3. SECURITY AGREEMENT

The security interest granted pursuant to this Patent Security Agreement is granted in conjunction with the security interest granted to the Administrative Agent for the Secured Parties pursuant to the Security Agreement, and Grantor hereby acknowledges and affirms that the rights and remedies of the Administrative Agent with respect to the security interest in the Patent Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. In the event that any provision of this Patent Security Agreement is deemed to conflict with the Security Agreement, the provisions of the Security Agreement shall control.

SECTION 4. RECORDATION

Grantor hereby authorizes and requests that the USPTO record this Patent Security Agreement.

SECTION 5. TERMINATION

This Patent Security Agreement shall terminate and the Lien on and security interest in the Patent Collateral shall be released upon the payment and performance of the Secured Obligations in accordance

with the Loan Documents. Upon the termination of this Patent Security Agreement, the Administrative Agent shall execute all documents, make all filings, and take all other actions reasonably requested by Grantor, and at Grantor's sole cost and expense, to evidence and record the release of the Lien on and security interests in the Patent Collateral granted herein.

SECTION 6. GOVERNING LAW

THIS PATENT SECURITY AGREEMENT SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAW OF THE STATE OF NEW YORK.

SECTION 7. COUNTERPARTS

This Patent Security Agreement may be executed in one or more counterparts and by different parties hereto in separate counterparts, each of which when so executed and delivered shall be deemed an original, but all such counterparts together shall constitute but one and the same instrument. Delivery by facsimile or other electronic transmission (i.e., a "pdf" or "tif") of an executed counterpart of a signature page to this Patent Security Agreement shall be effective as delivery of an original executed counterpart of this Patent Security Agreement. The words "execution," "signed," "signature," "delivery," and words of like import in or relating to any document to be signed in connection with this Patent Security Agreement and the transactions contemplated thereby shall be deemed to include Electronic Signatures (as defined below), deliveries or the keeping of records in electronic form, each of which shall be of the same legal effect, validity or enforceability as a manually executed signature, physical delivery thereof or the use of a paper-based recordkeeping system, as the case may be, to the extent and as provided for in any applicable law, including the Federal Electronic Signatures in Global and National Commerce Act, the New York State Electronic Signatures and Records Act, or any other similar state laws based on the Uniform Electronic Transactions Act. The term "**Electronic Signature**" means an electronic sound, symbol, or process attached to, or associated with, a contract or other record and adopted by any natural person, corporation, limited liability company, trust, joint venture, association, company, partnership, governmental authority or other entity with the intent to sign, authenticate or accept such contract or record.
