PATENT

REEL: 063427 FRAME: 0309

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Appl. No. : 16/549,189 Confirmation No.: 6130
Applicant : Omachron Intellectual Property Inc.
Title : CONFIGURATION OF A SURFACE CLEANING APPARATUS
Inventor : Wayne Ernest Conrad
Grp./A.U. : 3723
Examiner : MCDONALD, SHANTESE L

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

DECLARATION OF OWNERSHIP

Dear Commissioner:

1. The above-referenced patent application was filed on August 23, 2019.
2. A chain of assignments from the inventor to Omachron Intellectual Property Inc. was recorded on the filing date of the instant application, on August 23, 2019. The assignments have been recorded under Reel/Frame Nos. 050155/0162, 050155/0165 and 050155/0187 respectively. The assignment records also received Identification Nos. 505638278, 505638280 and 505638282 respectively.
3. On February 15, 2023 a Notice of Allowance issued in the instant Application.
4. During the review of the Notice of Allowance, the Applicant noted that an additional assignment was erroneously filed on July 14, 2020, by Mr. Luis M. Ortiz. The assignment was from Kevin Kemper, Terry Hunsicker, Gus Hiller and

Kyle Shoor to BEEMETAL, CORP. and TENOVA S.P.A. The assignment was recorded under Reel/Frame No. 053203 / 0838.

5. The text of the assignment recorded under Reel/Frame No. 053203 / 0838 referred to United States Patent Application Serial No. **16/546189**. However, the coversheet referred to United States Patent Application Serial No. **16/549189**, which is the serial number of the application which is the subject of this Declaration of Ownership. Accordingly, the recordal of this assignment against United States Patent Application Serial No. **16/549189** occurred due to the inadvertent typographical error in the configuration of the application number.
6. The abstract to the chain of title shows that, on the filing date of this application, the Applicant placed the application in the name of Omachron Intellectual Property Inc. as a true owner of the instant application.
7. In view of the above summary of the true chain of title, the undersigned declares that the ownership of Omachron Intellectual Property Inc. should not be considered altered by the erroneously recorded assignment which was recorded under Reel/Frame no. **053203/0838**
8. The original applicant, Omachron Intellectual Property Inc., has been, and continues to be, the owner of United States Patent Application Serial No. **16/549189** and no transfer to rights to the erroneous assignee was ever intended.
9. The filer of the incorrectly recorded Assignment was contacted on April 3, 2023 and was requested to correct the Assignment records of the Assignment which should have been filed against U.S. Patent Application No. 16/546189.
10. A phone call of April 3 was acknowledged on April; 4, 2023 by the filer of the incorrectly recorded Assignment, Mr. Luis M. Ortiz. The filer advised that the records would be promptly reviewed.

11. On April 4, 2023, the filer of the incorrectly recorded assignment advised that he is no longer a legal representative of the erroneous Assignee. Since he is no longer an agent of record and a new assignment was recorded on the correct application by the newly appointed agent of record, the filer felt that he is no longer in the position to correct the records.
12. On April 4, Mr. Ortiz committed to correct the Assignment records.
13. In good faith, on April 20, 2023, the filer of the erroneously recorded assignment was contacted again.
14. In the absence of any response from the filer and in the absence of the further changes to the records on the application of Omachron Intellectual Property Inc., Snezana Lisowsky, United States Patent Clerk for the Applicant, contacted the Assignment Division of the U.S. Patent and Trademark Office, to inquire about the status of the corrective Assignment. The Office advised that no Corrective Assignment has been filed and also, the Office advised about the procedures available to the owner to correct the records created by the incorrectly recorded Assignment. Snezana Lisowsky was advised that further action may be taken by the Applicant's representative in the current situation.
15. Omachron Intellectual Property Inc. is desirous of correcting the Records of the Office before the payment of the issue fee which is due by May 15, 2023.
16. It is respectfully submitted that the filer is unwilling or unable to file corrective papers.
17. On April 24, 2023 the Assignment division of the United States Patent and Trademark Office was contacted again for further guidance on this matter. The Office requested an Affidavit or Declaration setting out the facts. As a result, this Declaration has been prepared to declare that Omachron Intellectual Property Inc. has been and continues to be the owner of the application at issue. The

assignment from the inventors Kevin Kemper, Terry Hunsicker, Gus Hiller and Kyle Shoop to Beemetal Corp. and Tenova S.P.A. was inadvertently recorded against United States Patent Application Serial No. **16/549189** due to mere typographical error in the application number.

18. The Office is respectfully requested to update the records to strike the recordal of assignment recorded under Reel/Frame No. 053203 / 0838 against United States Patent Application Serial No. **16/549189** and to show that Omachron Intellectual Property Inc. is a true owner of Application No. 16/549189.
19. I declare that all statements made herein are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful statements may jeopardize the validity of the above-referenced application or any patent issued thereon.

/Philip C. Mendes da Costa/
