IP OWNERSHIP

I acknowledge,

that the invention(s) and/or improvements identified in this Invention Disclosure Form (IDF) and any attachments hereto are a result of my engagement by Nielsen as employee or consultant to use my skills and ability to develop new processes, make new discoveries, conceive or first reduce to practice new things, improvements, innovations, inventions, and associated embodiments and/or works of authorship, relating to one or more current, planned, potential and/or future Nielsen products, services, methods or the like, including, without limitation, all software, products, processes, methods of manufacture, distribution and/or management of products ("Invention(s)"). I further acknowledge my obligation to submit to Nielsen for evaluation any and all Invention(s) developed in connection with or as a result of my engagement with Nielsen as employee or consultant and/or through the use of Nielsen resources.

I acknowledge my obligation to assign, and, in exchange for the monies and other consideration I received as employee and/or contractor with Nielsen, the receipt and sufficiency thereof are hereby acknowledged, do hereby assign and transfer, all of my entire right, title and interest in and to all such Invention(s) to The Nielsen Company (US), LLC, a Delaware Limited Liability Company, 85 Broad Street, New York, New York 10004, United States of America, its successors, assigns or nominees. This assignment includes all right, title and interest in and to all such Invention(s), and any patent application(s) (United States, international and/or foreign), which Nielsen may file, either solely or jointly with others, on said Invention(s) and/or improvements to said Invention(s), and in any and all Patent(s), which may be obtained on any of said patent application(s) anywhere in the world, and in any reissue(s) or extension(s) thereof. This assignment includes all rights associated with said patent application(s) and the underlying Invention(s) including, without limitation, all patent right(s) in any and all countries and all right(s) to claim priority to and/or from said patent application(s) in any and all countries. No rights whatsoever are reserved to me, but instead all rights are hereby transferred to Nielsen and Nielsen hereby accepts all such rights. This assignment is governed by the Law of the State of Illinois, United States of America without regard to its choice of law provisions.

I further agree to fully cooperate with and assist Nielsen in evaluating said Invention(s) and should Nielsen so decide in its sole discretion, in applying for and preparing any patent application(s), executing any assignment(s) or other documents to file said patent application(s), and/or record, perfect or maintain Nielsen's sole and exclusive ownership of said Invention(s), patent application(s), and any patent(s) that may issue therefrom anywhere in the world and all intellectual property rights embodied therein or associated with any of the foregoing.

I hereby authorize and request the Commissioner of Patents and Trademarks of the United States Patent and Trademark Office to issue any said Letters Patent(s) of the United States to Nielsen or its successors in interest. I also hereby authorize and request the appropriate governmental official(s) of the appropriate foreign patent Office(s) to issue any said foreign Patent(s) to Nielsen or its successors.

I also agree that,

except as specifically approved in connection with matters I am working on for Nielsen, I shall not, directly or indirectly use, disclose or cause to be disclosed any of the invention(s), trade secrets or proprietary information

("Information") associated with this or any IDF or any other information I may be exposed to as a result of my access thereto through the Anaqua software application. All such information and related materials are and shall remain the exclusive property of Nielsen or the clients of Nielsen.
