ASSIGNMENT

ASSIGNMENT made by XIAOPING CAI ("Assignor") of 6036 Mollinari Terrace, Fremont, California 94555 to TULA ETECHNOLOGY, INC., ("Assignee") a corporation organized under the laws of Delaware and located and doing business at 2460 Zanker Road, San Jose, California 95131.

For good and valuable consideration, the receipt from the Assignor and adequacy of which are hereby acknowledged by the Assignee, and in fulfillment of my pre-existing obligation of assignment, Assignor has sold, assigned and transferred, or by this Assignment does hereby sell, assign and transfer to the Assignee, the entire right, title and interest for the United States in and to the invention and the United States patent application identified by serial number and filing date below, and entitled "METHOD OF OPTIMIZING SYSTEM EFFICIENCY FOR BATTERY POWERED ELECTRIC MOTORS," for which I am making or have made application for Letters Patent, and any patents that may issue for the invention therein; together with the entire right, title and interest in and to said patent application and any divisions or continuations thereof, and any Letters Patent, obtained for said invention in the United States and foreign countries, or issuing out of said patent application or any such division or continuation thereof, and any reissues, reexaminations or extensions of any such Letters Patent; to have and to hold for the sole and exclusive use and benefit of the Assignee, its successors and assigns, to the full end of the term and terms for all such patents.

Further, the Commissioner for Patents is hereby authorized and requested to issue Letters Patent for said invention to Assignee, as owner of the entire right, title and interest therein.

Further, said Assignor hereby covenants that Assignor has full right to convey Assignor's entire right, title and interest in said invention, and that Assignor has not executed and will not execute any agreement in conflict herewith.

Further, Assignor covenants that Assignor will at any time, upon request, execute and deliver any and all papers that may be necessary or desirable to perfect the title in said Assignee, to said invention or any Letters Patent that may be granted therefor, and that if Assignee, or its assignee, desires to make a substitute, divisional or continuation application to said invention, or to secure a reissue, reexamination or extension of said Letters Patent, to file a disclaimer relating thereto or an application for a corresponding patent in any foreign country, that Assignor will, upon request, sign all papers, make all rightful oaths, and do all lawful acts requisite for the said purposes.

Further, Assignor hereby acknowledges that Assignor's entire beneficial interest in the invention to which the above application relates is irrevocably vested in the Assignee including the right to make applications for protection in all countries abroad and to claim priority under the International Convention for such applications and hereby assents to the making of any such applications, with or without priority claim, and of any divisional application resulting therefrom.

Further, Assignor covenants that Assignor will at all times communicate to Assignee, its successors, assigns or legal representatives, all facts relating to said invention and Letters Patent, or the history thereof, known to them, and testify as to the same in interferences or other

litigation pertaining to the enforcement or validity of any and all patents relating to said invention when requested so to do.

Further, Assignor agrees that Assignee, its successors, legal representatives, and assigns, may insert into this Assignment any further text necessary or desirable to define the Applications to which the Assignment pertains for purposes of recordation, and also agrees that the Assignment is effective at least as early as August 12, 2021, the earliest priority date of the Application(s).

Further, if this assignment is submitted for recordation at a time other than at the time of filing said patent application, Assignor hereby authorizes the above-mentioned assignee or the attorney of record to insert in this instrument the filing date and serial number of said application after the same shall have been identified by the United States Patent Office:

Serial No.: 17/401,000
Filing Date: August 12, 2021

Signed and sealed this 25th day of February, 2022.
