ASSIGNMENT OF INVENTION

Whereas, I Craig A. Carpenter ("Inventor"), am a joint inventor of the above-referenced invention for which a United States Utility Patent has been granted; and,

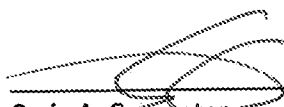

Whereas, Wildwood Farm Investments, LLC ("Assignee") is desirous of acquiring the entire right, title and interest in the same;

Now, therefore, in consideration of the sum of one dollar, the receipt whereof is hereby acknowledged, and for other good and valuable consideration, I hereby sell, assign and transfer to said Assignee the entire right, title and interest in the above referenced invention and associated U.S. Utility Patent, and in any continuation thereof, and to any patent that issues therefrom. I further sell, assign and transfer to Assignee all right title and interest in and to any and all patents or similar protection for the invention, which may be sought or obtained in any foreign country.

I am free to make this assignment, I have made no other assignment, sale or transfer relating to the invention, and am under no obligation to assign or license rights in the invention to any third party.

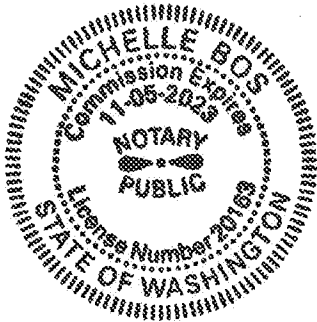

I hereby agree to cooperate fully with Assignee to execute any and all documents that may be required by the United States Patent and Trademark Office and any foreign intellectual property rights to perfect the rights herein assigned. I further agree to cooperate with Assignee in any court action relating to the validity or enforcement of rights in the invention.

Executed this 5<sup>th</sup> day of May, 20 23 at Granger, Washington.
