AFFIDAVIT

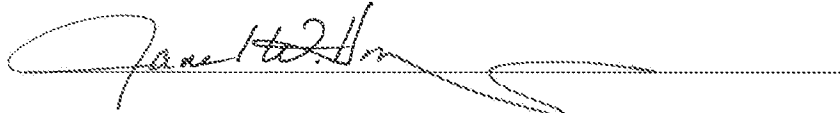

(For Recordation at the USPTO Assignment Recordation Branch)

1. I am the President of Colder Products Company ("CPC") located in Roseville, Minnesota. I have held the office of President since May 2017. CPC is an industry leader in the design and manufacture of specialized quick disconnect fluid couplings for the life sciences, industrial, and chemical handling markets.
2. In the role of President, I oversee all aspects of CPC business including all Marketing and Engineering functions.
3. From January 23, 2017, to January 4, 2022, Jeffrey Jonathan Martin ("Mr. Martin") was employed by CPC as an Applications Engineer III. In the role of Applications Engineer III, Mr. Martin was responsible for designing new products to meet customer's requirements.
4. In consideration of his ongoing employment, salary and benefits, Mr. Martin was under an obligation to assign to CPC ownership rights to all inventions resulting from his role of Applications Engineer III.
5. During his employ, and as a result of his role as an Applications Engineer III at CPC, Mr. Martin was a co-inventor of the following patent applications filed by CPC:
 - a. U.S. Application Serial No. 29/733,298 (filed April 30, 2020);
 - b. U.S. Application Serial No. 29/733,322 (filed April 30, 2020) issued as US Patent D947,787;
 - c. U.S. Application Serial No. 29/829,850 (filed March 8, 2022) continuation application of US Application Serial No. 29/733,322;
 - d. U.S. Provisional Application Serial No. 63/038,423 (filed June 12, 2020);
 - e. U.S. Provisional Application Serial No. 63/150,406 (filed February 17, 2021);
 - f. U.S. Application Serial No. 17/331,905 (filed May 27, 2021);

 - i. U.S. Application Serial No. 29/814,534 (filed November 5, 2021).
6. Despite CPC's attempts to obtain written Assignments from Mr. Martin, Mr. Martin has not provided signed Assignment documents for the above patent applications.

7. Despite the lack of written Assignments to document the ownership transfer of the above applications from Mr. Martin to CPC, CPC is rightfully the exclusive owner of all the applications listed above.

I declare under penalty of perjury that the foregoing is true and correct. Executed at
