GRANT OF SECURITY INTEREST IN PATENT RIGHTS

This grant of security interest in patent rights (the "Agreement"), dated as of February 25, 2023 is made by S & C RAIL SOLUTIONS INC. LES SOLUTIONS FERROVIAIRE S & C INC. (the "Grantor"), in favor of NORTH AMERICAN TRANSIT SUPPLY CORPORATION, (the "Secured Party").

The Grantor is bound by a General Security Agreement dated as of February 25, 2023, in favor of the Secured Party (as the same may be amended, restated, supplemented or otherwise modified and in effect from time to time), (collectively the "Security Agreement"). The Grantor has pledged and granted to the Secured Party a continuing security interest in all intellectual property, including the Patents.

NOW THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, the Grantor agrees, for the benefit of the Secured Party, as follows:

1. Definitions. Unless otherwise defined herein or the context otherwise requires, terms used in this Agreement have the meanings provided or provided by reference in the Security Agreement or other agreements referred to therein.

2. Grant of Security Interest. (a) This Agreement is made to confirm that the Security Agreement applies to the Grantor's Patents registered in the United States and the European Union including those listed on Schedule A attached hereto to secure the satisfactory performance and payment of the obligations contained in the Security Agreement.

(b) The Grantor hereby pledges and grants to the Secured Party a lien in and security interest in all of the Grantor's right, title and interest, whether now owned or hereafter acquired, in and to (i) its patents and the registrations and applications for registration thereof, including the foregoing listed on Schedule A, and the goodwill of the business symbolized by the foregoing; (ii) all income, royalties, damages, and payments now or hereafter due or payable with respect thereto, including, without limitation, damages, claims, and payments for past and future infringements thereof; (iii) all rights to sue for past, present, and future infringements of the foregoing, including the right to settle suits involving claims and demands for royalties owing; and (iv) all rights corresponding to any of the foregoing throughout the world (the "Patents").

3. Purpose. This Agreement has been executed and delivered by the Grantor for the purpose of recording the grant of security interest herein with the appropriate patent registries. The security interest granted hereby has been granted to the Secured Party in connection with the Security Agreement and is expressly subject to the terms and conditions thereof. The Security Agreement (and all rights and remedies of the Secured Party thereunder) shall remain in full force and effect in accordance with its terms.

4. Acknowledgment. The Grantor acknowledges that the rights and remedies of the Secured Party with respect to the security interest in the collateral granted herein are more fully set forth in the Security Agreement, the terms and provisions of which (including the remedies provided for therein) are incorporated by reference herein as if fully set forth herein. In the event of any conflict between the terms of this Agreement and the terms of the Security Agreement, the terms of the Security Agreement shall govern.
