CONFIRMATORY PATENT ASSIGNMENT

This CONFIRMATORY PATENT ASSIGNMENT (this “**Patent Assignment**”), effective as of June 5, 2020 (the “**Effective Date**”), is entered into by and between Dura Automotive Holdings U.K., Ltd, Dura Automotive Systems, LLC and Dura Operating, LLC, on behalf of itself and all of its predecessors, including Dura Global Technologies, Inc. and Dura Global Technologies, LLC (collectively, “**Assignors**”) and DUS Operating Inc., a Delaware corporation (“**Assignee**”). Assignors and Assignee are each referred to individually as a “**Party**” and together as the “**Parties**.”

WHEREAS, Assignors are the sole and exclusive beneficial and record owner of the patents and patent applications set forth on Schedule B attached hereto; and

WHEREAS, Assignors or certain of their affiliates and Assignee or certain of its affiliates have entered into that certain Stock and Asset Purchase Agreement dated as of April 29, 2020 (as it may be amended, supplemented or modified from time to time, the “**NA Purchase Agreement**”), under which, among other things, Assignors have agreed to transfer and assign to Assignee all of Assignors’ right, title and interest in, to and under the patents, patent applications, invention disclosures, and all related foreign patents and patent applications, continuations, continuations-in-part, divisionals, reissues, re-examinations, substitutions, and extensions thereof, if any, including all causes of action, enforcement rights, infringement claims (including the right to sue or pursue remedies for past, present, and future infringement) based upon, arising out of or relating to any of the patents and patent applications identified in Schedule B subject to the terms and conditions set forth in the NA Purchase Agreement, amendments thereto, and primarily related to the Business (as defined in the NA Purchase Agreement), including without limitation those identified in Schedule B attached hereto (collectively, the “**NA Patents**”);

NOW, THEREFORE, in consideration of the mutual covenants, conditions, and agreements set forth herein and in the NA Purchase Agreement and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Assignors hereby confirm that, effective as of the Effective Date, have sold, assigned, and transferred, and hereby sell, assign, and transfer, to Assignee, its successors and assigns, the entire and exclusive right, title, and interest in and to the Patents in the United States and in all foreign countries, and in and to any divisions or continuations or continuations-in-part thereof or substitutes therefor which may be filed, and in and to any patents or reissues, renewals or extensions thereof, to be held and enjoyed by Assignee to the full end of the term for which the Letters Patent are granted and any extensions thereof, as fully and entirely as the same would have been held by Assignor had this assignment and sale not been made; and Assignor hereby covenant and agree to execute all instruments and documents required or reasonably requested by Assignee, or its duly authorized representative, for the making and prosecution of applications for Letters Patent therefor in the United States and in all foreign countries, for the benefit of Assignee without further or other compensation than that set forth above.

2. Assignor does further assign to Assignee all income, royalties, and damages hereafter due or payable to Assignor with respect to the assigned Patents, including without limitation, damages and payments for past or future infringements; and all rights to sue for past, present and future infringements of the assigned Patents.

3. Purchase Agreement. Nothing herein shall be deemed to extend or amplify the rights, remedies, duties, or obligations of Assignee or Assignors under the NA Purchase Agreement and, to the extent that there is any conflict between the terms and conditions of this Confirmatory Patent Assignment and the terms and conditions of the NA Purchase Agreement, the terms and conditions of the NA Purchase Agreement shall govern, supersede, and prevail. Except as otherwise provided herein, all capitalized terms used and not defined herein (including the recitals hereto) shall have the respective meanings assigned to such terms in the NA Purchase Agreement.

4. Governing Law. The interpretation and construction of this Confirmatory Patent Assignment, and all matters relating to this Confirmatory Patent Assignment, will be governed by the laws of the State of New York without giving effect to any conflict of law provisions thereof.

IN WITNESS WHEREOF, the parties hereto have caused this Patent Assignment to be executed and delivered as of the day and year first above written.
