I. ASSIGNMENT

WHEREAS, the undersigned, Daniel A. Summers, Kevin S. Fry and Jonathan M. Loomis (collectively referred to as “**Assignor**”) are the co-inventors of the invention having Docket No. 3092326US-US01, entitled “ARCHERY RISER, ARCHERY RISER MOUNT, ARCHERY ACCESSORY ADJUSTMENT ASSEMBLY, AND PROJECTILE SUPPORT DEVICE,” for which a patent application of the United States has been, or is about to be, filed in the United States Patent and Trademark Office (“**Identified Application**”); and

WHEREAS, the undersigned, QTM, LLC, a limited liability company duly organized and existing under the laws of Virginia (“**Assignee**”), having an office at 301 E. Progress Lane, Madison Heights, Virginia 24572, desires to acquire the entire right, title, and interest therein.

NOW, THEREFORE, in consideration of One Dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor does hereby sell, assign, transfer and convey, and hereby set over unto Assignee, its successors, assigns and legal representatives, the full and exclusive right, title and interest in and to such invention, the Identified Application and all patents issuing therefrom in all countries and jurisdictions to the full end of the terms for which such patents may be granted, to be held, used and enjoyed by, and in the name of, Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignor had this assignment and sale not been made, including, without limitation: (i) such invention as described in the Identified Application; (ii) any and all improvements, betterments and modifications of such invention; (iii) all patent applications to which the Identified Application claims priority, including, without limitation, any provisional patent application (collectively, “**Ancestral Applications**”); (iv) all patent applications that claim priority to the Identified Application or any Ancestral Application, including, without limitation, divisions, continuations, continuations-in-part, non-provisionals of provisionals, design patent applications claiming priority to non-provisionals, patents of addition, reissues, reexaminations, foreign counterparts and foreign equivalents thereof, substitutions of or for any of the foregoing applications (the Identified Application, Ancestral Applications and the other applications listed above, collectively referred to herein as “**Family Applications**”); (v) all patents issuing or granted from the Family Applications; (vi) all foreign rights related to the Family Applications, including, without limitation, the right to make applications for patents for such invention in any and all foreign countries and the right to claim priority as to the filing dates of the Family Applications under the International Convention, Patent Cooperation Treaty, European Patent Convention and any other international treaty; and (vii) all income, royalties, damages and payments related to the invention or patent rights assigned hereunder that are due or payable to Assignor as of the execution of this Instrument or thereafter, including, without limitation, all claims for damages (whether royalty-based or profit-based) arising from past, present or future infringement or other unauthorized use of the invention, patent applications or patents assigned hereunder, together with the right to sue for, and collect such damages.

Assignor hereby authorizes and requests the patent office of the country in which this Instrument is recorded to issue to Assignee or its successors or assigns, all patents issuing from the patent applications assigned hereunder.

Assignor hereby agrees, upon request of Assignee, its successors, assigns or legal representatives, and without further remuneration, to execute any and all papers desired by Assignee, its successors, assigns and legal representatives, for the filing, prosecution and granting of the applications and patents assigned hereunder and the perfecting of title thereto in Assignee, its successors, assigns and legal representatives.

Assignor furthermore agrees to execute any papers, provide any information and testify in any derivation proceeding, interference or litigation at the request of Assignee, its successors, assigns and legal representatives, for purposes of Assignee's, its successors', assigns' and legal representatives' full enjoyment, protection, enforcement and title in and to such invention, patent applications, issued patents and other rights assigned hereunder; provided, however, that Assignor shall reimburse Assignee for any reasonable out-of-pocket travel expenses and daily loss in personal wages caused by the time and activities required by this paragraph.

In the event that, and only to the extent that: (i) any provision of this Instrument violates the applicable law of any country or jurisdiction in which this Instrument is recorded, registered or asserted for legal purposes; or (ii) any court of competent jurisdiction adjudges any provision of this Instrument to be invalid or unenforceable, such violation or judgment shall not affect, impair or otherwise invalidate the remainder of this Instrument in such country or jurisdiction, but shall be confined in its operation to the specific provision of this Instrument which gave rise to such violation or judgment.
