In connection with the good and valuable consideration, the receipt of which is hereby acknowledged, the undersigned party, CURIAN, INC., a Delaware corporation ("Assignor"), hereby sells, assigns, and transfers to CHRISTOPHER CAMIRÉ, an individual, residing at 1585 Bradford Way, Morgan Hill, CA 95037 ("Assignee"), and his successors, assigns, and legal representatives, the entire right, title, and interest for the United States and all foreign countries, in and to any and all inventions and improvements that are disclosed and/or claimed in the applications for the United States Patent identified below:

U.S. Patent Application Serial No. 17/486,680, filed on Sep. 27, 2021, and titled: CENTRIFUGES;  
U.S. Patent Application Serial No. 63/083,799, filed on Sep. 25, 2020, and titled: CENTRIFUGES;

and in and to said applications and all related provisional applications, non-provisional applications, divisional applications, continuation applications, continued prosecution applications, continuation-in-part applications, substitute applications, renewal applications, reissue applications, reexaminations, extensions, and all other patent applications that have been or shall be filed in the United States and all foreign countries on any of said inventions and improvements; and in and to all original patents, reissued patents, reexamination certificates, and extensions that have been or shall be issued in the United States and all foreign countries on said inventions and improvements; and in and to all rights of priority resulting from the filing of said United States applications;

agree that said Assignee may apply for and receive a patent or patents for said inventions and improvements in his own name; and that, when requested, without charge to, but at the expense of, said Assignee, his successors, assigns, and legal representatives, to carry out in good faith the intent and purpose of this Assignment, the undersigned will execute all divisional applications, continuation applications, continued prosecution applications, continuation-in-part applications, substitute applications, renewal applications, reissue applications, reexaminations, extensions, and all other patent applications on any and all said inventions and improvements; execute all rightful oaths, assignments, powers of attorney, and other papers; communicate to said Assignee, his successors, assigns, and representatives all facts known to the undersigned relating to said inventions and improvements and the history thereof; and generally assist said Assignee, his successors, assigns, or representatives in securing and maintaining proper patent protection for said inventions and improvements and for vesting title to said inventions and improvements, and all applications for patents and all patents on said inventions and improvements, in said Assignee, his successors, assigns, and legal representatives; and

covenant with said Assignee, his successors, assigns, and legal representatives that no assignment, grant, mortgage, license, or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that full right to convey the same as herein expressed is possessed by the undersigned.

I/we hereby authorize and request any attorney having appropriate authority from the assignee to insert on the designated lines above, the filing date and application number of said application when known.
