COMBINED ASSIGNMENT & DECLARATION (37 CFR 1.63)

I. Assignment

For good and valuable consideration, the receipt of which is hereby acknowledged, I, an undersigned inventor, have sold, assigned, and transferred and do hereby sell, assign, and transfer to Checkmate Savings Inc. ("ASSIGNEE"), for itself and its successors, transferees, and assignees, the following:

1. The entire worldwide right, title, and interest in all inventions or improvements ("the Subject Matter") that are disclosed in the following non-provisional patent application filed under 35 U.S.C. § 111(a): The attached application entitled "Consolidated Order Status and Tracking" having the inventorship listed below ("the Application").

2. The entire worldwide right, title, and interest in and to: (a) the Application; (b) all applications claiming priority to the Application; (c) all provisional, utility, divisional, continuation, substitute, renewal, reissue, and other applications to the Subject Matter which have been or may be filed in the United States or elsewhere in the world; (d) all patents (including reissues and re-examinations) which may be granted on the applications set forth in (a), (b), and (c) above; and (e) all right of priority in the Application and in any underlying provisional or foreign application, together with all rights to recover damages for infringement of provisional rights.

I agree that Assignee may apply for and receive patents for the Subject Matter in Assignee's own name.

I agree to do the following, when requested, and without further consideration, in order to carry out the intent of this Assignment: (1) execute all oaths, assignments, powers of attorney, applications, and other papers necessary or desirable to fully secure to Assignee the rights, titles, and interests transferred herein; (2) communicate to Assignee all known facts relating to the Subject Matter; and (3) generally do all lawful acts that Assignee shall consider desirable for pursuing, obtaining, maintaining, and enforcing worldwide patent protection relating to the Subject Matter and for vesting in Assignee the rights, titles, and interests transferred herein. I further agree to provide any successor, assign, or legal representative of Assignee with the benefits and assistance provided to Assignee by this Assignment.

I represent that I have the rights, titles, and interests to convey as set forth herein. I further represent and agree that I have not made and will not hereafter make any assignment, grant, mortgage, license, or other agreement affecting the rights, titles, and interests transferred in this Assignment.

I authorize Assignee or its designated attorney to insert on this Assignment any further identification that may be necessary or desirable in order to comply with the requirements of the United States Patent and Trademark Office for recordation of this document.

II. Declaration (37 CFR 1.63)

I hereby declare that the above-identified Application was made or authorized to be made by me.

I have reviewed and understand the contents of the Application, including the claims.

I believe that I am the original inventor or an original joint inventor of a claimed invention in the Application.

I am aware of the duty to disclose to the Office all information known by me to be material to patentability of the Application, as defined in 37 CFR 1.56.

I hereby acknowledge that any willful false statement made in this declaration is punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years, or both.
