## ASSIGNMENT OF INVENTION(S), PATENT APPLICATION(S) AND/OR PATENT(S)

COYOTE DESIGN & MANUFACTURING, INC. (hereinafter designated as the Assignor), in consideration of good and valuable consideration paid to it, agrees to assign, and hereby does assign, transfer and set over to COYOTE O&P INC, an Idaho Corporation (hereinafter designated as the Assignee) at the address of 1491 S. TYRELL LN, BOISE, ID 83706, the entire right, title and interest in and to the inventions listed in Appendix A, attached, for which Applications were filed in the United States Patent and Trademark Office, and which inventions, patent applications, and any resulting patents are also hereby assigned, transferred, and set over to Assignee. Assignor also agrees without further consideration to assign, and hereby does assign, any and all future U.S. design and utility patent applications (including provisional, non-provisional, continuation, continuation-in-part, divisional applications, and re-examined and re-issued patents), claiming priority of the above-identified applications. Assignor hereby give the law office of Pedersen & Company, PLLC permission to fill in the filing dates and the serial numbers of said filed and future U.S. design and utility patent applications and any patents resulting therefrom:

---

1) Assignor agrees without further consideration to execute all papers necessary or convenient in connection with each application to protect the invention, and any continuation, continuation-in-part, divisional applications, and any patents resulting therefrom, and also to execute separate assignments in connection with such applications and resulting patents as the Assignee may deem necessary or expedient.

2) Assignor agrees without further consideration to execute all papers necessary or convenient in connection with any interference, re-examination, reissue or other post issue proceeding which may be declared concerning any applications/patents relating to the invention, or any continuation, continuation-in-part, or division thereof, and to cooperate with the Assignee in every way possible in obtaining evidence and going forward with any such proceedings.

3) Assignor agrees without further consideration to perform all affirmative acts, and communicate to said Assignee or its representatives any facts known to Assignor regarding said invention, and generally to do everything possible which may be necessary or convenient to obtain grants of valid patents to the Assignee relating to the inventions.

4) Assignor hereby authorizes and requests the United States Commissioner of Patents and Trademarks to issue any and all Letters Patents resulting from said applications or any continuation, continuation-in-part, or divisional applications thereof, to the said Assignee, as Assignee of the entire interest, and hereby covenants that Assignor has full right to convey the

entire interest herein assigned, and that Assignor has not executed, and will not execute, any agreement in conflict herewith.

5) Assignor hereby grants the Assignee and its duly authorized representatives the power to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office regarding any related application or patent, for recordation of this document.

NOW THEREFORE, Assignor hereby forever transfers and assigns unto Assignee all right, title, and interest, in and to the subject inventions and applications/patents; the same to be held and enjoyed by Assignee, its heirs, successors, assigns, and legal representatives, as completely as if the inventions and applications/patents would have been held by Assignor had this assignment not been made, including the right to sue for past infringements.
