ASSIGNMENT  
AND CONFIRMATION OF ASSIGNMENT OF PATENT RIGHTS

WHEREAS, the undersigned:

*Cark Atik, Ryan Leverenz, Alina Kim, Elizabeth Kirk, Yamile Mennah-Govela,  
Janelle Myers, and Jason Voogt*

hereinafter the “Inventors”, have invented certain new and useful improvements in:

*Oleogel having a protein microstructure with optimized oil release properties for  
replacing structured fats and saturated oils in food and cosmetic products*

*Climate change mitigation using oleogels prepared from plant proteins  
to replace animal derived fats and tropical oils in food products*

for which the following applications were fielding the United States Patent and Trademark Office:

Serial no. 63/451,645, filed March 13, 2023;

Serial no. 18/199,974, filed May 22, 2023; and

Serial no. 18/201,408, filed May 24, 2023;

WHEREAS, *Shiru, Inc.*, a corporation of the State of California, having a place of business at 850 Marina Village Parkway, Suite 100, Alameda, CA 94501 in the United States of America, (hereinafter the “Assignee”), is desirous of acquiring and confirming that it has acquired the entire right, title and interest in and to the Application, and the inventions disclosed therein, and in and to all embodiments of the inventions, heretofore conceived, made or discovered, whether jointly or severally, by the Inventors (hereinafter collectively referred to as “Inventions”), and in and to any and all patents, inventor’s certificates and other forms of protection thereon granted in the United States, foreign countries, or under any international convention, agreement, protocol, or treaty, including those filed under the Paris Convention for the Protection of Industrial Property, The Patent Cooperation Treaty or otherwise (hereinafter “Patent(s)”) and the entire right to claim priority from the Application.

NOW, THEREFORE, in exchange for good and valuable consideration, the sufficiency of which is hereby acknowledged by the Inventors:

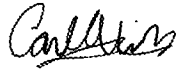

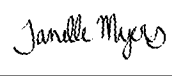

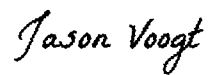

1. The Inventors do hereby sell, assign, quitclaim, transfer and convey, and confirm that the Inventors have sold, assigned, quitclaimed, transferred, and conveyed unto the Assignee the entire right, title and interest (a) in and to the Inventions; (b) in and to the Application, including the right to claim priority to and from the Application; (c) in and to each and every application that is a divisional, substitution, continuation, or continuation-in-part of any of the Application; (d) in and to the Patent(s) and each and every patent issuing or

- reissuing from any of the foregoing; (e) in and to each and every reissue, reexamination, renewal or extension of any kind of any of the foregoing; (f) in and to each and every patent and application filed outside the United States and corresponding to any of the foregoing; and (g) in and to all claims for past, present and future infringement of the Patent(s), including all rights to sue for and to receive and recover for Assignee's own use all past, present, and future lost profits, royalties, and damages of whatever nature recoverable from an infringement of the Patent(s).
2. The Inventors hereby covenant and agree to cooperate with the Assignee to enable the Assignee to enjoy to the fullest extent the right, title and interest herein conveyed in the United States, foreign countries, or under any international convention, agreement, protocol, or treaty. Such cooperation by the Inventors shall include prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by the Assignee; (a) for perfecting in the Assignee the right, title and interest herein conveyed; (b) for prosecuting any applications covering the Inventions; (c) for filing and prosecuting substitute, divisional, continuing or additional applications covering the Inventions; (d) for filing and prosecuting applications for reissuance of any the Patent(s); (e) for interference or other priority proceedings involving the Inventions; and (f) for legal proceedings involving the Inventions and any applications therefor and any Patent(s) granted thereon, including without limitation reissues and reexaminations, opposition proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions and court actions; provided, however, that reasonable expenses incurred by the Inventors in providing such cooperation shall be paid for by the Assignee.
  3. The terms and covenants of this assignment shall inure to the benefit of the Assignee, its successors, assigns and other legal representatives, and shall be binding upon the Inventors, their respective heirs, legal representatives and assigns.
  4. The Inventors hereby warrant, represent and covenant that the Inventors have not entered and will not enter into any assignment, contract, or understanding in conflict herewith.
  5. The Inventors hereby request that any Patent(s) issuing in the United States, foreign countries, or under any international convention, agreement, protocol, or treaty, be issued in the name of the Assignee, or its successors and assigns, for the sole use of the Assignee, its successors, legal representatives and assigns.
  6. This instrument will be interpreted and construed in accordance with the laws of the State of California, without regard to conflict of law principles. If any provision of this instrument is found to be illegal or unenforceable, the other provisions shall remain effective and enforceable to the greatest extent permitted by law. This instrument may be executed in counterparts, each of which is deemed an original, but all of which together constitute one and the same agreement.
