ASSIGNMENT OF PATENT APPLICATION

Whereas, I, Thomas Moore, of 6515 Pemwoods, San Antonio, Tx 78240, hereafter referred to as "applicant", am in the employ of Southwest Research Institute of 6220 Culebra Rd., San Antonio, Texas 78238 and have invented certain new and useful improvements in a Integrating Cavity of Monolithic Fumed Silica.

Whereas, my employer, Southwest Research Institute, hereafter referred to "assignee", in accordance with its ongoing contractual relationship with myself, is desirous of acquiring the entire right, title and interest in the same;

Now, therefore, for good and valuable consideration, the sufficiency of which is hereby acknowledged, I, the applicant(s), by these presents do sell, assign and transfer unto said assignee the full and exclusive right to the inventions in the designated Applications and the entire rights, title and interest in and to any and all Patents which may be granted therefore within and beyond the United States. This includes any rights attainable from any Continuation, Continuation-In-Part, Divisional or any other Application claiming priority to Applications noted herein including within and beyond the United States. In this regard, I hereby authorize and request the appropriate USPTO or other appropriate personnel within or beyond the United States to issue patents and other official documents to said assignee, of the entire right, title, and interest in and to the same, for the assignee's sole use and behoof; and for the use and behoof of assignee's legal representatives, to the full end of the term for which said patents may be granted, as fully and entirely as the same would have been held by me had this assignment and sale not been made.

Executed this 30th day of April, 2021 at San Antonio, Texas.
