DESIGNATED BUYER AGREEMENT

This DESIGNATED BUYER AGREEMENT (this “Agreement”) is made as of March 7, 2023 by and between Gordon Brothers Commercial & Industrial, LLC, a Delaware limited liability company, on behalf of its contractual joint venture with Nations Capital, Inc. (“GB”) and True Value Company, L.L.C., a Delaware limited liability company (“TV” and, together with GB, the “Parties”).

RECITALS

WHEREAS, on March 7, 2023, GB delivered an Asset Purchase Agreement (the “Purchase Agreement”) to Nova Wildcat Shur-Line Holdings, Inc., a Delaware corporation and certain of its subsidiaries (collectively, the “Seller Parties” and each, a “Seller”), pursuant to which, among other things, GB would acquire certain assets and Liabilities of the Seller Parties and/or the right to designate other Persons to purchase certain assets and Liabilities of the Seller Parties¹;

WHEREAS, GB has funded or caused to be funded the Good Faith Deposit into the Good Faith Deposit Escrow Account in accordance with the Purchase Agreement; and

WHEREAS, the Parties wish for GB to designate TV as a Designated Buyer for the purpose of acquiring certain Acquired Assets and assuming certain Assumed Liabilities as more fully described herein and on the terms and conditions set forth herein;

NOW, THEREFORE, in consideration of the foregoing, and the covenants, terms and conditions set forth herein, the Parties hereby agree as follows:

ARTICLE I DESIGNATED BUYER

Section 1.1 Designated Buyer. Pursuant to Schedule 13.2 of the Purchase Agreement, GB will designate TV as a Partner (a “Designated Buyer”) with respect to the Designated Assets and Designated Liabilities.

Section 1.2 Designated Assets. Subject to the terms of this Agreement, TV will assume all rights and obligations under the Purchase Agreement as Buyer of the following Acquired Assets (collectively, the “Designated Assets”):

(a) Acquired Assets described in Sections 2.1(a) and 2.1(c) of the Purchase Agreement [i.e., designation rights], in each case, solely to the extent related solely to the Shur-Line brand and business (“Shur-Line”) and the Wordlock brand and business (“Wordlock”).

(b) Acquired Intellectual Property owned or exclusively used by Shur-Line or Wordlock, including, without limitation, the Acquired Intellectual Property set forth on

¹ Capitalized terms used herein but not defined herein shall have the meanings given to them in the Purchase Agreement.

Schedule 1 (solely, for the avoidance of doubt, to the extent such items constitute Acquired Intellectual Property under the Purchase Agreement);

(c) Acquired Inventory produced solely under Shur-Line (“Designated Shur-Line Inventory”);

(d) Acquired Inventory produced solely under Wordlock (“Designated Wordlock Inventory” and, together with the Designated Shur-Line Inventory, the “Designated Inventory”);

(e) Acquired Assets described in Sections 2.1(m) and 2.1(n) of the Purchase Agreement (“Accounts Receivable”) that (i) are owed on account of Inventory produced solely under Shur-Line or (ii) are otherwise owed from TV or its Affiliates (“Designated A/R”); provided, however, that the Parties shall work in good faith to reconcile the Designated A/R owed to the Seller Parties from TV or its Affiliates, net of appropriate TV offsets and credits and notwithstanding the Bankruptcy Code (the “TV A/R”), and TV shall thereafter have the right to purchase the TV A/R, if any, in accordance with Section 2.1(c) of this Agreement;

(f) Acquired Assets described in Section 2.1(b) of the Purchase Agreement [*i.e.*, machinery, molds and equipment assets] that (i) are directly used in connection with the manufacturing and assembly of Shur-Line products at TV’s manufacturing facility in Cary, Illinois or other facilities, including the Acquired Assets set forth on Schedule 2; and (ii) are listed on Schedule 2, in each case, solely, for the avoidance of doubt, to the extent such items constitute Acquired Assets under the Purchase Agreement;

(g) Acquired Assets described in Section 2.1(l) of the Purchase Agreement [*i.e.*, books and records] that are related solely to any of the other Designated Assets; and

(h) Acquired Assets described in Sections 2.1(p) and (q) of the Purchase Agreement [*i.e.*, Claims and causes of action] against TV or its Affiliates.

Section 1.3 Designated Liabilities. TV will assume the following Assumed Liabilities (collectively, “Designated Liabilities”):

(a) All Liabilities relating to TV’s ownership or operation of the Designated Assets, to the extent relating to events, facts or circumstances, in each case, that first arise after the Closing Date.

ARTICLE II PURCHASE PRICE

Section 2.1 TV Purchase Price. As consideration for GB’s designation of TV as Designated Buyer with respect to the Designated Assets and Designated Liabilities, TV shall pay to GB, on or before the Closing Date, an amount in cash equal to (the “TV Purchase Price”):

(a) 45% of the cost value of all Designated Shur-Line Inventory; plus

- (b) 35% of the cost value of all Designated Wordlock Inventory; plus
- (c) 80% of the face dollar value of all Designated A/R for which the age is current or up to and including 90 days past due; plus
- (d) \$250,000.

For purposes of determining the TV Purchase Price, the Designated Inventory and Designated A/R values will be calculated on and as of the Closing Date. For the avoidance of doubt, aside from its obligation to pay GB the TV Purchase Price, TV will have no other obligations to fund any portion of the Purchase Price under the Purchase Agreement, including, without limitation any portion of the Final Purchase Price Adjustment, pursuant to section 3.5(e) of the Purchase Agreement.

Section 2.2 TV Deposit. Within one (1) business day of the execution and delivery of this Agreement, TV shall deposit or shall cause to be deposited with GB an amount equal to \$496,017.38 by wire transfer of immediately available funds (the "TV Deposit"). The TV Deposit shall be applied or returned to TV as follows:

- (a) if the Closing occurs, the TV Deposit shall be retained by GB and applied towards the TV Purchase Price;
- (b) if the Closing does not occur and the Good Faith Deposit is returned to GB, then the TV Deposit shall be returned to TV within two (2) business days of GB receiving the Good Faith Deposit; and
- (c) if the Closing does not occur and the Good Faith Deposit is not returned to GB, then the TV Deposit shall be retained by GB.

ARTICLE III BIDDING AND COOPERATION

Section 3.1 Successful Bid. The Parties are bound to consummate the transactions contemplated by the Purchase Agreement and this Agreement if the Purchase Agreement is selected by the Seller Parties as the successful bid.

Section 3.2 Joint Bidding. If an auction is held and the Seller Parties receive a higher or better bid than the bid contemplated by the terms set forth in the Purchase Agreement, then:

- (a) if GB and TV jointly agree to submit a topping bid, they will do so with TV funding to GB its pro rata share of the additional consideration based on the TV Purchase Price (before increasing the bid) relative to the Purchase Price; provided, that TV shall receive a credit of \$250,000 towards its obligation to provide additional consideration; and
- (b) if GB or TV elects not to submit a topping bid in accordance with Section 3.2(a) above, then (i) such electing Party is foreclosed from submitting a new bid independently or with any other Person, and (ii) the other Party is free to submit a new bid independently or with any other Person or to increase the Parties' bid by providing the additional consideration itself. In the event the other Party submits a new bid by providing

the additional consideration itself and such bid is selected by the Seller Parties as the successful bid, the Party electing not to submit a bid shall only be responsible for the portion of the Purchase Price such Party agreed to pay at the later of (a) the commencement of the auction; and (b) any topping bid submitted in accordance with Section 3.2(b).

Section 3.3 Bankruptcy Sale Order. GB shall use best efforts to ensure the proposed Sale Order is reasonably acceptable to TV, solely with respect to provisions that relate to the Designated Assets or Designated Liabilities, and subject to GB's ability to do so under Section 8.4 of the Purchase Agreement.

ARTICLE IV POST-CLOSING COVENANTS

Section 4.1 Wordlock A/R. GB will use commercially reasonable efforts to identify Accounts Receivable that are owed on account of Inventory produced solely under Wordlock ("Wordlock A/R"). To the extent GB identifies Wordlock A/R that can be easily segregated from other Accounts Receivable, and subject to TV's review and satisfaction, GB will agree to sell such Wordlock A/R to TV on the same terms applicable to the Designated A/R under this Agreement.

Section 4.2 Transition Services. Upon the request of TV, GB will request the use of, and provide TV with access to, any warehouse management or related services, accounts receivable systems, leased facilities, employees, equipment leases and any other services to which GB has a right to receive access pursuant to the Transition Services Agreement between GB and Seller (the "Pass-Through Transition Services"). While TV has access to any Pass-Through Transition Services, GB will not terminate its right to such Pass-Through Transition Services without TV's prior written consent (not to be unreasonably withheld). TV shall reimburse GB for (a) all of the actual costs of Pass-Through Transition Services used only by TV; (b) a portion of costs of shared Pass-Through Transition Services commensurate with TV's level of use of such services; and (c) all of the Pass-Through Transition Services if GB is no longer using such Pass-Through Transition Services but TV continues to use such services. If for any reason the Seller Parties fail to provide GB with any of the Pass-Through Transition Services, GB shall not be obligated to provide such services to TV but shall use commercially reasonable efforts to compel the Seller Parties to provide such services so GB can make such services available to TV. GB shall invoice TV on a monthly basis for the services contemplated in this Section 4.2, including a reasonably detailed description and accounting of all amounts set forth in such invoice. The invoice will be payable within fifteen (15) days of receipt by TV by wire transfer of immediately available funds.

Section 4.3 Reconciliations. On a bi-weekly basis, or as otherwise agreed between the Parties, from the Closing Date through the expiration of the Occupancy Period (or such later date as agreed in good faith), the Parties shall cooperate to reconcile expenses, collections and such other items as any party may reasonably request, in each case for the prior two (2) weeks or partial weeks, all pursuant to procedures agreed upon by the Parties. Prior to the Closing, the Parties shall cause the individuals who will be responsible for such sale reconciliations to confer and establish in good faith appropriate procedures for such sale reconciliations. Within thirty (30) days after the conclusion of the transactions contemplated by this Agreement, or as soon as practicable thereafter, the Parties shall complete a final reconciliation of the transactions contemplated by this Agreement

(the “Final Reconciliation”). Within five (5) days after the completion of the Final Reconciliation and execution of a settlement letter including an appropriate mutual release, the Parties shall pay to each other (as applicable) all amounts due the other pursuant to the Final Reconciliation. Each Buyer shall maintain accurate records and reasonable supporting documentation in respect of all calculations, allocations and payments made or arising in connection with this Agreement.

Section 4.4 Commingling. In the event that one Party is in possession of any assets or the proceeds thereof that belong to the other Party pursuant to the Purchase Agreement (as modified by this Agreement), such Party in possession of the other Party’s assets or proceeds shall promptly notify the other Party and hold such assets or proceeds “in trust” for the benefit of such other Party and shall cooperate with one another to promptly turn over to the other Party such assets or proceeds.

Section 4.5 Good Faith. The Parties hereby acknowledge and agree that various provisions of this Agreement require the Parties to mutually agree upon matters at a later date or otherwise require the Parties to work cooperatively with one another in respect of the transactions contemplated hereby. Accordingly, the Parties hereby agree to work with one another in good faith and in a commercially reasonable manner in respect of implementing the transactions contemplated hereby.

ARTICLE V MISCELLANEOUS

Section 5.1 Termination. This Agreement shall terminate (a) automatically if the Purchase Agreement is terminated for any reason or if the Parties mutually agree to terminate this Agreement; (b) upon written notice from TV to GB if there is a Material Adverse Event that directly affects the Designated Assets and only if such Material Adverse Event gives GB the right to terminate the Purchase Agreement; or (c) upon written notice from TV to GB if the Purchase Agreement is materially amended such that it adversely affects delivery of the Designated Assets to TV. Section 2.2 of this Agreement shall survive termination of this Agreement.

Section 5.2 Break-Up Fee. If GB receives a Break-Up Fee pursuant to the Purchase Agreement, it shall promptly pay a portion thereof to TV equal to (a) the Break-Up Fee *less* the Expense Reimbursement Amount (b) multiplied by 10%.

Section 5.3 Amendment. This Agreement may be amended or modified and the provisions hereof may be waived, only by an agreement in writing signed by each of the Parties.

Section 5.4 Severability. In the event that any provision hereof would, under applicable Law, be invalid or unenforceable in any respect, such provision shall be construed by modifying or limiting it so as to be valid and enforceable to the maximum extent compatible with, and possible under, applicable Law. The provisions hereof are severable, and in the event any provision hereof should be held invalid or unenforceable in any respect, it shall not invalidate, render unenforceable or otherwise affect any other provision hereof.

Section 5.5 Specific Performance. Each Party acknowledges that money damages would be both incalculable and an insufficient remedy for any breach of this Agreement by such Party and that any such breach would cause the other Parties irreparable harm. Accordingly, each

Party hereto agrees that, in the event of any breach or threatened breach of the provisions of this Agreement by such Party, then each other Party shall be entitled to equitable relief without the requirement of posting a bond or other security, including in the form of injunctions and orders for specific performance. Any and all remedies herein expressly conferred upon a Party will be deemed cumulative with and not exclusive of any other remedy conferred hereby, or by law or equity upon such Party, and the exercise by a Party of any one remedy will not preclude the exercise of any other remedy. Each Party hereby agrees not to raise any objections to the availability of the equitable remedy of specific performance to prevent or restrain breaches or threatened breaches of this Agreement by such Party and to specifically enforce the terms and provisions of this Agreement to prevent breaches or threatened breaches of, or to enforce compliance with, the covenants and obligations of such Party under this Agreement.

Section 5.6 Parties in Interest. This Agreement shall be binding upon and inure solely to the benefit of each Party, and nothing in this Agreement, express or implied, is intended to or shall confer upon any Person other than the Parties and their respective successors and permitted assigns. No Party may transfer or assign the rights and obligations under this Agreement without the express written consent of the other Party.

Section 5.7 Governing Law. Except to the extent of the mandatory provisions of the Bankruptcy Code, this Agreement and all disputes or controversies arising out of or relating to this Agreement or the transactions contemplated hereby (in contract or tort) shall be governed by, and construed in accordance with the internal Laws of the State of Delaware, without regard to the Laws of any other jurisdiction that might be applied because of the conflicts of laws principles of the State of Delaware.

Section 5.8 No Partnership or Agency. Nothing in this Agreement shall be deemed to constitute a partnership between any of the Parties, nor constitute any agreement that a Party will be the agent of any other Party for any purpose.

Section 5.9 Counterparts. This Agreement may be executed in any number of counterparts, including by means of email in portable document format (.pdf), each of which when executed shall be deemed to be an original copy of this Agreement and all of which taken together shall constitute one and the same Agreement.

Section 5.10 Access to Information and Facilities.

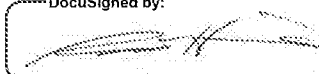

(a) Prior to Closing, to the extent GB has the right to enter the Freeport Facility or contact customers or suppliers in connection with the Acquired Assets, GB shall assign such rights to TV with respect to the Designated Assets.

(b) GB shall provide TV with reasonable access to any Acquired Assets described in Section 2.1(l) of the Purchase Agreement [*i.e.*, books and records] that are directly related to the Designated Assets but are not transferred to TV under the terms of this Agreement.

[Signature pages follow.]

IN WITNESS WHEREOF, each of the undersigned has duly executed this Agreement (or caused this Agreement to be executed on its behalf by its duly authorized officer or representative) as of the date first above written.

	US11525569 US20220090776	B2 A1	2022-12-13 2022-03-24		2020-09-21	(US11525569) Paint applicator assembly including a light assembly	A paint applicator assembly includes a frame having a base. The base has a forward side, a first lateral side, and a second lateral side opposite the first lateral side. A light assembly is supported by the frame. The light assembly includes a printed circuit board having a forward side portion positioned proximate the forward side of the base. The light assembly further includes a plurality of light sources supported on the printed circuit board. The plurality of light sources includes a first light source and a second light source positioned on the forward side portion. The first light source is configured to direct light along a first direction, and the second light source is configured to direct light along a second direction that is different than the first direction. The handle adapter assembly includes a housing having a first end and a second end opposite the first end. The housing includes a first connector positioned at the first end. The first connector is configured to attach to the paint applicator. The housing also includes an outer surface extending between the first end and the second end. One or more light sources is supported by the housing. A power source is supported by the housing. The power source is electrically connected to the one or more light sources. A bumper member is supported by the housing. The bumper member extends outwardly beyond the outer surface of the housing.	JACOBSON JOHN (USJ)	NOVA WILDCAT SHUR LINE (USJ)

A lock device configured in accordance with a particular embodiment of the present disclosure includes a disc lock housing, a locking mechanism positioned in the lock housing, and a plurality of rotatable wheels operably coupled to the locking mechanism. The rotatable wheels can individually have a plurality of indicia used to display a combination. The locking mechanism can be configured to move from a locked configuration to an unlocked configuration when the combination is displayed. The lock device can further include a shackle and a slider actuator positioned on an outer surface of the lock housing. The slider actuator can be operably coupled to the shackle and to the locking mechanism, and can be configured to drive the shackle from a closed position to an open position when the locking mechanism is in the unlocked configuration. Schedule 2

Designated Equipment

Equipment*

Continuous Roller Cover Processing Equipment

Equipment Type	Equipment Description	Equipment Process Use	Equipment Brand	# in Service	Year Manufactured
Continuous Winding System	In-Line continuous winding equipment + festoon accumulation system	System forms the core of a roller and then glues on fabric with hot melt from continuous extruder; vacuums excess dust; cuts to proper length and delivers to accumulators	Paco Winder + Webtex Extruder	2	2002
Accumulation System	In-Line continuous accumulator	System inducts master roller to system and provides accumulation between the winding equipment and processing equipment. This allows for continuous operation of both upstream and downstream process	Rolco	2	2002
Continuous Processing System	Roller cover processing equipment	System inducts master roller into magazine; shears fabric to proper length; bevels the edges of each roller; cuts to proper size and discharges	Edward Jackson	4	Various (1990-2002)
Vacuum System	Roller cover processing equipment	System vacuums roller covers while still inside the processors. This removes excess lint or other process contaminants before packaging	Parborn, Farr, Doyle	4	2002 (Doyle-2010)
Packaging In-Feed	Conveyance	System conveys finished roller covers from the processing/vacuum equipment into packaging equipment via PLC and arc controller based on the speed of the packaging equipment	Boach	4	2002
Packaging Equipment	Up-right packaging equipment	System meters roller covers into bagging equipment which is configured as an upright L-Bar sealer. Pack configurations range from 1 to 8 per bag depending on customer need. Speed is programmed and controlled based on master recipe	RENNCO	4	2002-2006
Packaging Equipment	Box Sealing and Marking	System seals the upper and lower flaps on the corrugated shipping container and applies 12 of 5 identification label	3M & Loveshaw Case Sealers Loveshaw Case Labelers	4	2002-2017

Manual Roller Cover Processing Equipment

Equipment Type	Equipment Description	Equipment Process Use	Equipment Brand	# in Service	Year Manufactured
Winding system	Winding equipment + festoon accumulation system	System forms the core of a roller and then glues on fabric with hot melt from continuous extruder; vacuums excess dust; cuts to proper length	Paco Winder + Webtex Extruder	1	1990's (rebuilt in 2003)
Processing System	Roller cover processing equipment	Manual Feed specialty processing equipment capable of producing multiple different sized roller covers - 9, 9.5, 11.5, 3, 4, 18 inch. Manual feed magazine, inducts master stick; shears Edward Jackson; proper length	Edward Jackson	1	2005
Vacuum System	Roller cover processing equipment	System vacuums roller covers while still inside the processors. This removes excess lint or other process contaminants before packaging	Dunkley, Doyle	1	2005 (Doyle-2010)
Processing System	Roller cover processing equipment	Manual feed processor only capable of producing 9 3/8" roller covers. Output onto accumulation conveyor (BOSCH)	Goliath (Company Built)	1	1990
Packaging Equipment	Up-right packaging equipment	Auto-feed upright L-Bar seal packaging equipment. Capable of running pack configurations of 1 to 8 roller covers. Speed is programmed and controlled by recipe	RENNCO	1	2008
Packaging Equipment	Up-right packaging equipment	Auto-Feed up-right platform L-Bar sealer, configured for 6 pack of roller covers - connected to Goliath	RENNCO	1	2018
Packaging Equipment	Box Sealing and Marking	System seals the upper and lower flaps on the corrugated shipping container and applies 12 of 5 identification label	3M & Loveshaw Case Sealers Loveshaw Case Labelers	2	2002-2017

Mini Roller Cover Processing Equipment

Equipment Type	Equipment Description	Equipment Process Use	Equipment Brand	# in Service	Year Manufactured
Winding System	Winding equipment + festoon accumulation system	System forms the core of a MINI roller; glues the fabric onto the core; vacuums and cuts to proper length	Paco Winder + Webtex Extruder	1	1990's (rebuilt in 2017)
Processing System	Roller cover processing equipment	Manual feed magazine; Inducts MINI roller stick; Shears to proper length; Bevels Roller Edges; Cuts to proper length (4.6, or 9 inch); Discharges into box	KPS (Company Built)	1	2007 (rebuilt in 2017)
Roller Finishing System	Roller cover processing equipment	From dump bin MINI rollers are inducted via lift conveyor; core is warmed; inserts ferrule into both ends of the roller to allow for frame to be fitted	WQH-LEP	1	2017
Packaging Equipment	Re-Sealable Bag Packaging Equipment	Manual feed re-sealable bag sealer; Top Load; Manual Index; up to 6 per bag	Autobag Sprint	3	2017
Packaging Equipment	Bagged Packaging Equipment	Manual feed sealer, top load; auto index; up to 8 inch bag	Autobag & Sharp (Freeport)	1	2002-2008
Packaging Equipment	Box Sealing and Marking	System seals the upper and lower flaps on the corrugated shipping container and applies 12 of 5 identification label	3M & Loveshaw Case Sealers Loveshaw Case Labelers	2	2002-2016

Tray Set Fabrication

Equipment Type	Equipment Description	Equipment Process Use	Equipment Brand	# in Service	Year Manufactured
----------------	-----------------------	-----------------------	-----------------	--------------	-------------------

Infeed System - Conflex	Automated conveyance	Infeed system linked to the speed of the downstream wrapping system. Pin driver. Accumulation and assembly of trayset	CONFLEX	1	2005-2007
Wrapping System	Overwrap Shrink System	Overwrap, cut and shrink the product	CONFLEX	2	2005-2007
Labeling System	Pressure Sensitive Label Applicator	Apply sales label to front or side of product	Weber Marking & AutoLabel	4	2009
Packaging Equipment	Box Sealing and Marking	System seals the upper and lower flaps on the corrugated shipping container and applies 12 of 5 identification label	Bestpack or Central Case Sealers Loveslaw Case Labelers	2	2005-2007
Wrapping System	Overwrap Shrink System	Manual feed overwrap and shrink system	SHANKLIN	1	1990's (New over seal head in 2010)
