(hereinafter "Application(s)").

WHEREAS, The Regents of the University of California, a corporation of the State of California, having its statewide administrative offices located at 111 Franklin Street, 5th Floor, Oakland, California 94607-5200, (hereinafter "Assignee"), is desirous of acquiring the entire right, title and interest in and to said Application(s) and the inventions disclosed therein, and in and to all embodiments of the inventions, heretofore conceived, made or discovered, whether jointly or severally, by said Inventor(s) (hereinafter collectively referred to as "Inventions"), and in and to any and all patents, inventor's certificates and other forms of protection (hereinafter "Patent(s)") thereon granted in the United States, foreign countries, or under any international convention, agreement, protocol, or treaty.

WHEREAS, I, MICHAEL E. JUNG, am an employee of the University of California since July 1, 1974 and I read and signed the University of California Patent Acknowledgement on May 3, 1974, which stated that I had an obligation to assign inventions and patents that I conceived or developed while employed by the University of California to Assignee.

WHEREAS, I, MICHAEL E. JUNG, am an inventor of the claimed subject matter of U.S. Provisional Application No. 60/785,978, filed March 27, 2006 and, based on the University of California Patent Acknowledgement that I signed on May 3, 1974, Assignee was the beneficial owner of the entire right, title and interest in the inventions disclosed in U.S. Provisional Application No. 60/785,978 as of March 27, 2006.

WHEREAS, I, MICHAEL E. JUNG, am an inventor of the claimed subject matter of U.S. Provisional Application No. 60/833,790, filed July 28, 2006 and, based on the University of California Patent Acknowledgement that I signed on May 3, 1974, Assignee was the beneficial owner of the entire right, title and interest in the inventions disclosed in U.S. Provisional Application No. 60/833,790 as of July 28, 2006.

WHEREAS, I, MICHAEL E. JUNG, am an inventor of the claimed subject matter of International patent application No. PCT/US2007/007485, filed March 27, 2007 and, based on the University of California Patent Acknowledgement that I signed on May 3, 1974, Assignee was the beneficial owner of the entire right, title and interest in the inventions disclosed in International patent application No. PCT/US2007/007485 as of March 27, 2007.

PATENT ASSIGNMENT

Docket Number 18473B-0008XXxx

WHEREAS, I, MICHAEL E. JUNG, previously assigned my rights in International patent application No. PCT/US2007/007485 to Assignee on July 25, 2007 and such assignment was recorded with the United States Patent Office on August 9, 2007 at Reel 019673, Frame 0247.

WHEREAS, The Regents of the University of California and MICHAEL E. JUNG acknowledge and agree that Assignee was the sole beneficial owner of the entire right, title and interest in the Inventions and Applications described herein, as of the filing date of each of the Applications and as of the invention date of each of the Inventions.

NOW, THEREFORE, in consideration of good and valuable consideration acknowledged by said Inventor to have been received in full from said Assignee:

1. Said Inventor does hereby sell, assign, transfer and convey unto said Assignee the entire right, title and interest (a) in and to said Inventions and Applications, including the right to claim priority to said Inventions and said Applications; (b) in and to all rights to all United States and corresponding non-United States patent applications and Patent(s), including those filed under the Paris Convention for the Protection of Industrial Property, The Patent Cooperation Treaty or otherwise; (c) in and to any and all applications filed and any and all Patent(s) granted on said Inventions in the United States, in any foreign country, or under any international convention, agreement, protocol, or treaty, including each and every application filed and any and all Patent(s) granted on any application which is a divisional, substitution, continuation, or continuation-in-part of any of said Application(s); and (d) in and to each and every reissue, reexamination, or extensions of any of said Patent(s).
2. Said Inventor does hereby covenant and agree to cooperate with said Assignee to enable said Assignee to enjoy to the fullest extent the right, title and interest herein conveyed in the United States, foreign countries, or under any international convention, agreement, protocol, or treaty. Such cooperation by said Inventor shall include prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for prosecuting any applications covering said Inventions; (c) for filing and prosecuting substitute, divisional, continuing or additional applications covering said Inventions; (d) for filing and prosecuting applications for reissuance of any said Patent(s); (e) for interference or other priority proceedings involving said Inventions; and (f) for legal proceedings involving said Inventions and any applications therefor and any Patent(s) granted thereon, including without limitation reissues and reexaminations, opposition proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions and court actions; provided, however, that the expense incurred by said Inventor in providing such cooperation shall be paid for by said Assignee.
3. The terms and covenants of this assignment shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Inventor(s), their respective heirs, legal representatives and assigns.
4. Said Inventor hereby warrants and represents that he has not entered and will not enter into any assignment, contract, or understanding in conflict herewith other than those set forth herein.
5. Said Inventor hereby requests that any Patent(s) issuing in the United States, foreign countries, or under any international convention, agreement, protocol, or treaty, be issued in the name of the Assignee, or its successors and assigns, for the sole use of said Assignee, its successors, legal representatives and assigns.
6. This instrument will be interpreted and construed in accordance with the laws of the State of California, without regard to conflict of law principles. If any provision of this instrument is found to be illegal or unenforceable, the other provisions shall remain effective and enforceable to the greatest extent permitted by law. This instrument may be executed in counterparts, each of which is deemed an original, but all of which together constitute one and the same agreement.

IN WITNESS WHEREOF, said Inventor has executed and delivered this instrument to said Assignee as of the dates written below:

PATENT ASSIGNMENT

Docket Number 18473B-0008XXxx

WHEREAS, I, SAMEDY OUK, previously assigned my rights in International patent application No. PCT/US2007/007485 to Assignee on July 6, 2007 and such assignment was recorded with the United States Patent Office on August 9, 2007 at Reel 019673, Frame 0247.

WHEREAS, The Regents of the University of California and SAMEDY OUK acknowledge and agree that Assignee was the sole beneficial owner of the entire right, title and interest in the Inventions and Applications described herein, as of the filing date of each of the Applications and as of the invention date of each of the Inventions.

NOW, THEREFORE, in consideration of good and valuable consideration acknowledged by said Inventor to have been received in full from said Assignee:

1. Said Inventor does hereby sell, assign, transfer and convey unto said Assignee the entire right, title and interest (a) in and to said Inventions and Applications, including the right to claim priority to said Inventions and said Applications; (b) in and to all rights to all United States and corresponding non-United States patent applications and Patent(s), including those filed under the Paris Convention for the Protection of Industrial Property, The Patent Cooperation Treaty or otherwise; (c) in and to any and all applications filed and any and all Patent(s) granted on said Inventions in the United States, in any foreign country, or under any international convention, agreement, protocol, or treaty, including each and every application filed and any and all Patent(s) granted on any application which is a divisional, substitution, continuation, or continuation-in-part of any of said Application(s); and (d) in and to each and every reissue, reexamination, or extensions of any of said Patent(s).

2. Said Inventor does hereby covenant and agree to cooperate with said Assignee to enable said Assignee to enjoy to the fullest extent the right, title and interest herein conveyed in the United States, foreign countries, or under any international convention, agreement, protocol, or treaty. Such cooperation by said Inventor shall include prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for prosecuting any applications covering said Inventions; (c) for filing and prosecuting substitute, divisional, continuing or additional applications covering said Inventions; (d) for filing and prosecuting applications for reissuance of any said Patent(s); (e) for interference or other priority proceedings involving said Inventions; and (f) for legal proceedings involving said Inventions and any applications therefor and any Patent(s) granted thereon, including without limitation reissues and reexaminations, opposition proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions and court actions; provided, however, that the expense incurred by said Inventor in providing such cooperation shall be paid for by said Assignee.

3. The terms and covenants of this assignment shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Inventor(s), their respective heirs, legal representatives and assigns.

4. Said Inventor hereby warrants and represents that he has not entered and will not enter into any assignment, contract, or understanding in conflict herewith other than those set forth herein.

5. Said Inventor hereby requests that any Patent(s) issuing in the United States, foreign countries, or under any international convention, agreement, protocol, or treaty, be issued in the name of the Assignee, or its successors and assigns, for the sole use of said Assignee, its successors, legal representatives and assigns.

6. This instrument will be interpreted and construed in accordance with the laws of the State of California, without regard to conflict of law principles. If any provision of this instrument is found to be illegal or unenforceable, the other provisions shall remain effective and enforceable to the greatest extent permitted by law.
