**COMBINED DECLARATION (37 CFR 1.63) AND ASSIGNMENT FOR UTILITY OR DESIGN  
APPLICATION USING AN APPLICATION DATA SHEET (37 CFR 1.76)**

**Title of  
Invention**

Microelectromechanical System Sensors for ATM Information Security

As the below named inventor, I hereby declare that:

This declaration  
is directed to:

The attached application, or

United States application or PCT international application number \_\_\_\_\_  
filed on \_\_\_\_\_.

The above-identified application was made or authorized to be made by me.

I believe that I am the original inventor or an original joint inventor of a claimed invention in the application.

I hereby acknowledge that any willful false statement made in this declaration is punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years, or both.

**ASSIGNMENT**

WHEREAS, I, Sivashalini S (Name), a citizen of India (Country), residing in Chennai, India (City, State/Province) have invented the invention(s) described in the patent application identified above and having the application number and filing date listed below. (If the following lines are blank, the application identified above was filed contemporaneously with this Assignment, and I hereby authorize Assignee (identified below) and/or its representatives to insert the application number and filing date below after they become known.)

U.S. Application No. \_\_\_\_\_, filed \_\_\_\_\_.

WHEREAS, BANK OF AMERICA CORPORATION ("Assignee"), a corporation duly organized under the laws of the State of Delaware, and having its offices and principal place of business at Charlotte, North Carolina, desires to acquire the entire right, title and interest in and to the above-identified invention(s) and all patent applications, utility models, and patents therefor.

NOW, THEREFORE, for good and valuable consideration (including salary, employee benefits, and/or other compensation), the receipt and sufficiency of which is hereby acknowledged, I do hereby assign and transfer (or confirm the assignment and transfer to the extent already effected by operation or law, contract, and/or the fulfillment of any and all legal requirements regarding the transfer of employee inventions in my country of employment) unto Assignee, the full and exclusive right, title, and interest in and to said invention(s) and all patent applications, utility models, and patents therefor (including all divisional, continuation, continuation-in-part, and reissue applications and patents claiming priority thereto) in any country in the world, including all rights and remedies associated therewith including the right to sue for and recover past damages and to recover under 35 U.S.C. §154(d) or any other law permitting remedies for infringement prior to the issuance of a patent.

I hereby authorize and request the Commissioner for Patents, and any other official whose duty it is to issue patents in any jurisdiction, to issue patents on said invention(s) or resulting therefrom to Assignee, or its successors and assigns, as assignee of the entire right, title and interest in said patents.

I represent and warrant that I have full right to agree to, execute, and deliver this assignment.

I agree that I will, without further consideration but at the expense of Assignee, communicate to Assignee, or its successors, assigns, or nominees, any and all facts known to me regarding said inventions whenever requested, and that I will execute all non-provisional, divisional, reissue, reexamination, continuation and continuation-in-part applications, testify in any legal proceedings, sign all lawful papers, make all rightful oaths, and do anything else necessary or reasonably desirable for

Firm No.: 007131.03037

PMN: P14743US01

Assignee, its successors, assigns, and/or nominees, to obtain and enforce proper patent protection for said invention(s) in all countries.

Should any provision of this Assignment be deemed invalid or unenforceable by reason of any law, statute, regulation, or judgment, existing now or in the future in any jurisdiction, such provision shall be modified in such jurisdiction so as to nearly approximate the intent of the parties. If this cannot be done, such invalid or unenforceable provision shall be divisible and be deleted in any such jurisdiction, and all other provisions shall remain in full force and effect. The modification or deletion of any provision in one jurisdiction shall have no effect on this Assignment in any other jurisdiction.

**WARNING:**

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.
